JOINT RESOLUTION

February 8, 1974
[S. J. Res. 185]

To provide for advancing the effective date of the final order of the Interstate Commerce Commission in Docket No. MC 43 (Sub-No. 2).

Whereas the Interstate Commerce Commission, through its proposed order issued January 30, 1974, in Docket No. MC 43 (Sub-No. 2), seeks to alleviate a serious and pressing transportation problem by requiring carriers to reimburse their owner-operators for all increases in the price of fuel over the base period May 15, 1973; and

Whereas section 221(b) of the Interstate Commerce Act, 49 U.S.C. 321(b) appears to preclude the Commission from making its final order in MC 43 (Sub-No. 2) effective in less than thirty days; and

Whereas the inability to effectuate the final order in MC 43 (Sub-No. 2) more promptly will cause substantial hardship to a significant portion of the motor carrier industry and the shipping public; and

Whereas there exists a national transportation crisis which presents a grave risk to the commerce and well-being of the Nation: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Commission shall issue a final order in MC 43 (Sub-No. 2) as soon as possible which shall become effective not later than February 15, 1974.

The project for flood protection on the Grand River and tributaries, Missouri and Iowa, authorized by the Flood Control Act of 1965 is hereby modified to authorize and direct the Chief of Engineers to proceed immediately with the engineering and design of the Pattonsburg Lake project as presently authorized subject to such modifications as are determined desirable by the Chief of Engineers on the basis of results of a review of the authorized Grand River Basin plan of development including consideration of the current justification and feasibility of advance Federal participation in construction of the I-35 highway crossing of the river and of including power facilities during the project construction. Such inclusion of power facilities shall be subject to submission of a feasibility report to the Congress and subsequent congressional action thereon.

SEC. 54. (a) This section may be cited as the "Shoreline Erosion Control Demonstration Act of 1974".

(b) The Congress finds that because of the importance and increasing interest in the coastal and estuarine zone of the United States, the deterioration of the shoreline within this zone due to erosion, the harm to water quality and marine life from shoreline erosion, the loss of recreational potential due to such erosion, the financial loss to private

and public landowners resulting from shoreline erosion, and the inability of such landowners to obtain satisfactory financial and technical assistance to combat such erosion, it is essential to develop, demonstrate, and disseminate information about low-cost means to prevent and control shoreline erosion. It is therefore the purpose of this section to authorize a program to develop and demonstrate such means to combat shoreline erosion.

(c)(1) The Secretary of the Army, acting through the Chief of Engineers, shall establish and conduct for a period of five fiscal years a national shoreline erosion control development and demonstration program. The program shall consist of planning, constructing, operating, evaluating, and demonstrating prototype shoreline erosion control devices, both engineered and vegetative.

National shoreline erosion control development and demonstration program.

(2) The program shall be carried out in cooperation with the Secretary of Agriculture, particularly with respect to vegetative means of preventing and controlling shoreline erosion, and in cooperation with Federal, State, and local agencies, private organizations, and the Shoreline Erosion Advisory Panel established pursuant to subsection (d).

(3) Demonstration projects established pursuant to this section shall emphasize the development of low-cost shoreline erosion control devices located on sheltered or inland waters. Such projects shall be undertaken at no less than two sites each on the shorelines of the Atlantic, Gulf and Pacific coasts, the Great Lakes, and the State of Alaska, and at locations of serious erosion along the shores of Delaware Bay, particularly at those reaches known as Pickering Beach, Kitts Hummock, Bowers, Slaughter Beach, Broadkill Beach, and Lewes in the State of Delaware. Sites selected should, to the extent possible, reflect a variety of geographical and climatic conditions.

(4) Such demonstration projects may be carried out on private or public lands except that no funds appropriated for the purpose of this section may be expended for the acquisition of privately owned lands. In the case of sites located on private or non-Federal public lands, the demonstration projects shall be undertaken in cooperation with a non-Federal sponsor or sponsors who shall pay at least 25 per centum of construction costs at each site and assume operation and maintenance costs upon completion of the project.

(d)(1) No later than one hundred and twenty days after the date of enactment of this section the Chief of Engineers shall establish a Shoreline Erosion Advisory Panel. The Chief of Engineers shall appoint fifteen members to such Panel from among individuals who are knowledgeable with respect to various aspects of shoreline erosion, with representatives from various geographical areas, institutions of higher education, professional organizations, State and local agencies, and private organizations, except that such individuals shall not be regular full-time employees of the United States. The Panel shall meet and organize within ninety days from the date of its establishment, and shall select a Chairman from among its members. The Panel shall then meet at least once each six months thereafter and shall expire ninety days after termination of the five-year program established pursuant to subsection (c).

Salisbury, Md.

SEC. 97. (a) If the Secretary of the Army acting through the Chief of Engineers, finds that the proposed project in Salisbury, Maryland, to be undertaken at the locations to be declared nonnavigable under this section is in the public interest, on the basis of engineering studies to determine the location and structural stability of any bulkheading and filling and permanent pile-supported structures, in order to preserve and maintain the remaining navigable waterway and on the basis of environmental studies conducted pursuant to the National Environmental Policy Act of 1969, then those portions of the South Prong of the Wicomico River in Wicomico County, State of Maryland, bounded and described as follows, are declared to be not a navigable water of the United States within the meaning of the laws of the United States, and the consent of Congress is hereby given, consistent with subsection (b) of this section, to the filling in of a part thereof or the erection of permanent pile-supported structures thereon: That portion of the South Prong of the Wicomico River in Salisbury, Maryland, bounded on the east by the west side of United States Route 13; on the west by the west side of the Mill Street Bridge; on the south by a line five feet landward from the present water's edge at high tide extending the entire length of the South Prong from the east boundary at United States Route 13 to the west boundary at the Mill Street Bridge; and on the north by a line five feet landward from the present water's edge at high tide extending the entire length of the South Prong from the east boundary at United States Route 13 to the west boundary at the Mill Street Bridge.

The total Federal expenditure for this acquisition shall not exceed \$7,000,000 and local interests shall contribute 50 per centum of any cost in excess of \$6,000,000. No action may be initiated for any taking of prospective mitigation lands until an offer has first been made to the landowner thereof to take only an environmental easement. Easement-taking offers shall allow the landowner the choice of either keeping access subject to private control or allowing public access. Easements for environmental purposes on lands not cleared at the time of taking shall prevent clearing of the land for commercial agricultural purposes or any other purpose inconsistent with wildlife habitat but shall allow any landowners to manage the lands to provide a perpetual, regularly harvested hardwood forest, which may be harvested in such a manner as to provide food and habitat for a variety of wildlife. Selection of areas and designation of use shall be within the discretion of the Chief of Engineers. SEC. 106. Notwithstanding section 105 of the River and Harbor Act of 1966 (80 Stat. 1406) or any other provision of the law, the States of Illinois and Missouri, which are connected by the bridge constructed by the city of Chester, Illinois, pursuant to Public Law 76-751 and Public Law 85-512, are authorized to contract individually or jointly with the city of Chester, Illinois, on or before June 1, 1974, to assume responsibility for the operation, maintenance, and repair of the Chester Bridge and the approaches thereto and lawful expenses incurred in connection therewith (exclusive of principal, interest, and financing charges on the outstanding indebtedness on such bridge and approaches). When either or both States enter into such an agreement, all tolls thereafter charged for transit over such bridge shall, except as provided in the last two sentences of this Act, be used exclusively (A) to retire outstanding indebtedness (including reasonable interest and financing charges) on the bridge and approaches thereto and (B) credited into a sinking fund established for such bridge. No tolls shall be charged for transit over such bridge after the outstanding indebtedness on the bridge and approaches (including reasonable interest and financing charges) has been retired, or sufficient funds are available through the sinking fund to pay off all outstanding indebtedness (including reasonable interest and financing charges) on such bridge and approaches. If a State declines or is unable to participate in the agreement authorized by this Act, the other State may assume the responsibilities such State would have assumed under such an agreement. In that event, the assuming State shall be entitled to receive from toll revenues, after provision is made for principal and interest payments on any indebtedness then outstanding on the bridge and its approaches, as reimbursement, an amount of money (no less often than annually) which is equal to the nonparticipating State's fair share of the operating, maintenance, repair, and other lawful costs incurred in connection with the bridge and its approaches.

SEC. 107. Payment for such construction cost may be either in lump sum or on an installment basis.

33 USC 1323.

SEC. 108. (a) As used in this section the term "Secretary" shall mean the Secretary of the Army, acting through the Chief of Engineers. The Secretary, in accordance with the national recreation area concept included in the interagency report prepared pursuant to section 218 of the Flood Control Act of 1968 (Public Law 90-483) by the Corps of Engineers, the Department of the Interior, and the Department of Agriculture, as modified by this section, is authorized and directed to establish on the Big South Fork of the Cumberland River in Kentucky and Tennessee the Big South Fork National River and Recreation Area (hereafter in this section referred to as the "National Area") for the purposes of conserving and interpreting an area containing unique cultural, historic, geologic, fish and wildlife, archeologic, scenic, and recreational values, preserving as a natural, free-flowing stream the Big South Fork of the Cumberland River, major portions of its Clear Fork and New River stems, and portions of their various tributaries for the benefit and enjoyment of present and future generations, the preservation of the natural integrity of the scenic gorges and valleys, and the development of the area's potential for healthful outdoor recreation. The boundaries shall be as generally depicted on the drawing prepared by the Corps of Engineers and entitled "Big South Fork National River and Recreation Area" identified as map number BSF-NRRA(1)(A) and dated October 1972, which shall be on file and available for public inspection in the office of the District Engineer, U.S. Army Engineer District, Nashville, Tennessee.

Area.
Establishment.

Boundaries.

(b) The Secretary shall establish the National Area by publication of notice thereof in the Federal Register when he determines that the United States has acquired an acreage within the boundaries of the National Area that is efficiently administrable for the purposes of this section. After publication of notice, and after he has completed the construction of necessary access roads, day-use facilities, campground facilities, lodges, and administrative buildings, the Secretary shall transfer the jurisdiction of the National Area to the Secretary of the Interior who shall administer the National Area in accordance with the provisions of the Act of August 25, 1916 (39 Stat. 535; 16 U.S.C. 1, 2-4), as amended and supplemented. In the administration of the National Area the Secretary may utilize such statutory authority available to him for the conservation and management of wildlife and natural resources as he deems appropriate to carry out the purposes of this section. The Secretary of the Interior may, after transfer to him, revise the boundaries from time to time, but the total acreage within such boundaries shall not exceed one hundred and twenty-five

thousand acres. Following such transfer the authorities available to the Secretary in subsection (c) of this section shall likewise be available to the Secretary of the Interior. The Secretary may, prior to the transfer to the Secretary of the Interior, revise the boundaries from time to time, but the total acreage within such boundaries shall not exceed one hundred and twenty-five thousand acres.

Land, waters,
acquisition.

(c) (1) Within the boundaries of the National Area, the Secretary may acquire lands and waters or interests therein by donation, purchase with donated or appropriated funds, or exchange or otherwise, except that lands (other than roads and rights-of-way for roads) owned by the States of Kentucky and Tennessee or any political subdivisions thereof may be acquired only by donation. When an individual tract of land is only partly within the boundaries of the National Area, the Secretary may acquire all of the tract by any of the above methods in order to avoid the payment of severance costs. Land so acquired outside of the boundaries of the National Area may be exchanged by the Secretary for non-Federal lands within the National Area boundaries, and any portion of the land not utilized for such exchanges may be disposed of in accordance with the provisions of the Federal Property and Administrative Services Act of 1949 (63 Stat. 377; 40 U.S.C. 471 et seq.), as amended. Notwithstanding any other provision of law, any Federal property within the boundaries of the National Area shall be transferred without consideration to the administrative jurisdiction of the Secretary for the purposes of this section.

erty, transfer.

Residential
property, right of
use and occu-
pancy.

(2) With the exception of property or any interest in property that the Secretary determines is necessary for purposes of administration, preservation, or public use, any owner or owners (hereafter in this section referred to as "owner") of improved property used solely for noncommercial residential purposes on the date of its acquisition by the Secretary may retain the right of use and occupancy of such property for such purposes for a term, as the owner may elect, ending either (A) upon the death of the owner or his spouse, whichever occurs later, or (B) not more than twenty-five years from the date of acquisition. The Secretary shall pay to the owner the fair market value of the property on the date of such acquisition, less the fair market value on such date of the term retained by the owner. Such right: shall be subject to such terms and conditions as the Secretary deems appropriate to assure that the property is used in accordance with the purposes of this section; may be transferred or assigned; and may be terminated with respect to the entire property by the Secretary upon his determination that the property or any portion thereof has ceased to be used for noncommercial residential purposes, and upon tender to the holder of the right an amount equal to the fair market value, as of the date of the tender, of that portion of the right which remains unexpired on the date of termination. Any person residing upon improved property, subject to the right of acquisition by the Secretary as a tenant or by the sufferance of the owner or owners of the property may be allowed to continue in such residence for the lifetime of such person or his spouse, whichever occurs later, subject to the same restrictions as applicable to owners residing upon such property and provided that any obligation or rental incurred as consideration for such tenancy shall accrue during such term to the United States to be used in the administration of this section.

"Improved
property."

(3) As used in this section the term "improved property" means a detached year-round one-family dwelling which serves as the owner's

permanent place of abode at the time of acquisition, and construction of which was begun before January 1, 1974, together with so much of the land on which the dwelling is situated, such land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, except that the Secretary may exclude from any improved property any waters or land fronting thereon, together with so much of the land adjoining such waters or land as he deems necessary for public access thereto.

(4) In any case where the Secretary determines that underlying minerals are removable consistent with the provisions of subsection (e) (3) of this section, the owner of the minerals underlying property acquired for the purposes of this section may retain such interest. The Secretary shall reserve the right to inspect and regulate the extraction of such minerals to insure that the values enumerated in subsection (a) are not reduced and that the purposes declared in subsection (e) (1) are not interfered with.

Mineral rights.

(d) The Secretary, and the Secretary of the Interior after jurisdiction over the National Area has been transferred to him under subsection (b) of this section, shall permit hunting, fishing, and trapping on lands and waters under his jurisdiction within the boundaries of the National Area in accordance with applicable Federal and State laws, except that he may designate zones where, and establish periods when, no hunting, fishing, or trapping shall be permitted for reasons of public safety, administration, fish or wildlife management, or public use and enjoyment. Except in emergencies, any rules and regulations of the Secretary or the Secretary of the Interior pursuant to this subsection shall be put into effect only after consultation with the appropriate State agency responsible for hunting, fishing, and trapping activities.

Hunting, fishing,
trapping.

(e) (1) The National Area shall be established and managed for the purposes of preserving and interpreting the scenic, biological, archeological, and historical resources of the river gorge areas and developing the natural recreational potential of the area for the enjoyment of the public and for the benefit of the economy of the region. The area within the boundary of the National Area shall be divided into two categories; namely, the gorge areas and adjacent areas as hereinafter defined.

(2) (A) Within the gorge area, no extraction of, or prospecting for minerals, petroleum products, or gas shall be permitted. No timber shall be cut within the gorge area except for limited clearing necessary for establishment of day-use facilities, historical sites, primitive campgrounds, and access roads. No structures shall be constructed within the gorge except for reconstruction and improvement of the historical sites specified in paragraphs (5) and (6) of this subsection and except for necessary day-use facilities along the primary and secondary access routes specified herein and within five hundred feet of such roads, and except for primitive campgrounds accessible only by water or on foot. No motorized transportation shall be allowed in the gorge area except on designated access routes.

Gorge area,
restrictions.

(B) Primary access routes into the gorge area may be constructed or improved upon the general route of the following designated roads: Tennessee Highway Numbered 52, FAS 2451 (Leatherwood Ford Road), the road into the Blue Heron Community, and Kentucky Highway Numbered 92.

Access routes.

(C) Secondary access roads in the gorge area may be constructed or improved upon the following routes: the roads from Smith Town, Kentucky, to Worley, Kentucky, the road crossing the Clear Fork at Burnt Mill Bridge, the road from Goad, Tennessee, to Zenith, Tennessee, the road from Co-Operative, Kentucky, to Kentucky Highway Numbered 92, the road entering the gorge across from the mouth of Alum Creek in Kentucky, the road crossing the Clear Fork at Peters Bridge.

(D) All other existing roads in the gorge area shall be maintained for nonvehicular traffic only, except that nothing in this section shall abrogate the right of ingress and egress of those who remain in occupancy under subsection (c) (1) of this section.

(E) Road improvement or maintenance and any construction of roads or facilities in the gorge area as permitted by this section shall be accomplished by the Secretary in a manner that will protect the declared values of this unique natural scenic resource.

Adjacent areas,
restrictions.

Regulations.

(3) In adjacent areas: the removal of timber shall be permitted only where required for the development or maintenance of public use and for administrative sites and shall be accomplished with careful regard for scenic and environmental values; prospecting for minerals and the extraction of minerals from the adjacent areas shall be permitted only where the adit to any such mine can be located outside the boundary of the National Area; no surface mining or strip mining shall be permitted; prospecting and drilling for petroleum products and natural gas shall be permitted in the adjacent area under such regulations as the Secretary or the Secretary of the Interior, after jurisdiction over the national river and recreation area has been transferred to him under subsection (b) of this section, may prescribe to minimize detrimental environment impact, such regulations shall provide among other things for an area limitation for each such operation, zones where operations will not be permitted, and safeguards to prevent air and water pollution; no storage facilities for petroleum products or natural gas shall be located within the boundary of the National Area except as necessary and incidental to production; the Secretary is authorized to construct two lodges with recreational facilities within the adjacent areas so as to maximize and enhance public use and enjoyment of the National Area; construction of all roads and facilities in the adjacent areas shall be undertaken with careful regard for the maintenance of the scenic and esthetic values of the gorge area and the adjacent areas.

Boundaries.

(4) The gorge area as set out in paragraphs (1) and (2) of this subsection shall consist of all lands and waters of the Big South Fork, Clear Fork, and New River which lie between the gorge or valley rim on either side (where the rim is not clearly defined by topography, the gorge boundary shall be established at an elevation no lower than that of the nearest clearly demarked rim on the same side of the valley), and those portions of the main tributaries and streams in the watersheds of the Big South Fork, Clear Fork, and New River that lie within a gorge or valley rim on either side, except that no lands or waters north of Kentucky Highway Numbered 92 shall be included. The designated adjacent areas shall consist of the balance of the National Area.

(5) The Secretary, and the Secretary of the Interior, shall consult and cooperate with the Tennessee Historical Commission and the Rugby Restoration Association and with other involved agencies and

associations, both public and private, concerning the development and management of the National Area in the area adjacent to Rugby, Tennessee. Development within the area adjacent to Rugby, Tennessee, shall be designed toward preserving and enhancing the historical integrity of the community and any historical sites within the boundary of the National Area.

(6) The Secretary, or the Secretary of the Interior, after jurisdiction over the National Area has been transferred to him under subsection (b) of this section, shall provide for the restoration of the Blue Heron Mine community in a manner which will preserve and enhance the historical integrity of the community and will contribute to the public's understanding and enjoyment of its historical value. To that end the Secretary, or the Secretary of the Interior, after jurisdiction over the National Area has been transferred to him under subsection (b) of this section, may construct and improve structures within and may construct and improve a road into this community.

(f) The Federal Power Commission shall not license the construction of any dam, water conduit, reservoir, powerhouse, transmission line, or other project works under the Federal Power Act (41 Stat. 1063) as amended (16 U.S.C. 791a et seq.), within or directly affecting the National Area and no department or agency of the United States shall assist by loan, grant, license, or otherwise in the construction of any water resources project that would have a direct and adverse effect on the values for which the National Area was established. Nothing contained in the preceding sentence shall preclude licensing of, or assistance to, developments below or above the National Area or on any stream tributary thereto which will not invade the National Area or unreasonably diminish the scenic, recreation, and fish and wildlife values present in the area on the date of enactment of this section. No department or agency of the United States shall recommend authorization of any water resources project that would have a direct and adverse effect on the values for which the National Area was established, or request appropriations to begin construction of any such project, whether heretofore or hereafter authorized, without advising the Secretary or the Secretary of the Interior, after jurisdiction over the National Area has been transferred to him under subsection (b) of this section, in writing of its intention so to do at least sixty days in advance, and without specifically reporting to the Congress in writing at the time it makes its recommendations or request in what respect construction of such project would be in conflict with the purposes of this section and would affect the National Area and the values to be protected under this section.

(g) The Secretary shall study transportation facilities in the region served by the National Area and shall establish transportation facilities to enhance public access to the National Area. In this connection the Secretary is authorized to acquire and maintain public roads, other than State highways, necessary to serve the public use facilities within the National Area, and to establish and maintain, at Federal cost an interior and circulating road system sufficient to meet the purposes of this section. Any existing public road, which at the time of its acquisition continues to be a necessary and essential part of the county

Nothing in this subsection shall abrogate the right of egress and ingress of those persons who may remain in occupancy under subsection (c) of this section. Nothing in this subsection shall preclude the adjustment, relocation, reconstruction, or abandonment of State highways situated in the National Area, with the concurrence of the agency having the custody of such highways upon entering into such arrangements as the Secretary or the Secretary of the Interior, after jurisdiction over the National Area has been transferred to him under subsection (b) of this section, deems appropriate and in the best interest of the general welfare.

Such plan shall include, among other things, programs to enhance the environment and conserve and develop natural resources, and to minimize siltation and acid mine drainage. Such plan, with recommendations, including those as to costs and administrative responsibilities, shall be completed and transmitted to the Congress within one year from the date of enactment of this section.

(i) The Secretary or the Secretary of the Interior, after jurisdiction over the National Area has been transferred to him under subsection (b) of this subsection, shall consult and cooperate with other departments and agencies of the United States and the States of Tennessee and Kentucky in the development of measures and programs to protect and enhance water quality within the National Area and to insure that such programs for the protection and enhancement of water quality do not diminish other values that are to be protected under this section.

(j) (1) Until such time as the transfer of jurisdiction to the Secretary of the Interior authorized by subsection (b) of this section shall take place, for the purpose of financially assisting the States of Tennessee and Kentucky, McCreary County, Kentucky, and Scott, Morgan, Pickett, and Fentress Counties in Tennessee, because of losses which these jurisdictions will sustain by reason of the fact that certain lands and other property within their boundaries may be included within the National Area established by this section and thereafter will no longer be subject to real and personal property taxes levied or imposed by them, payments shall be made to them on an annual basis in an amount equal to those taxes levied or imposed on such property for the last taxable year immediately preceding the date of enactment of this section.

Appropriations.

(2) For the purpose of enabling the Secretary to make such payments during the fiscal years ending June 30, 1975, June 30, 1976, June 30, 1977, June 30, 1978, and June 30, 1979, there are authorized to be appropriated such sums as may be necessary.

To provide funeral transportation and living expense benefits to the families of deceased prisoners of war, and for other purposes.

March 29, 1974
[S. 3228]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SHORT TITLE

SECTION 1. This Act may be cited as the "Funeral Transportation and Living Expense Benefits Act of 1974".

Funeral Transportation and Living Expense Benefits Act of 1974.

37 USC 406
note.

FINDINGS

SEC. 2. (a) The United States did in 1973 provide transportation and other amenities to families of five hundred and fifty-six returned prisoners of war for reunions upon these men's arrival in the continental United States after release from imprisonment by the government of the Democratic Republic of Vietnam and did in 1973 also provide transportation and other amenities to these returned prisoners of war and their families to attend ceremonies in their honor in Washington, District of Columbia.

(b) The remains of other prisoners of war, having died in captivity in Southeast Asia, are now being returned to the United States for burial.

(c) The United States owes no lesser degree of respect, honor or solicitude to the memories of the men who died in captivity and their families than in the cases of those who survived and returned alive to the United States.

(d) It is fitting and proper, therefore, as a mark of respect to those men who died in captivity while serving in the Armed Forces of the United States, that comparable courtesies and amenities be extended to the families of these deceased military personnel.

BENEFITS

SEC. 3. (a) The Secretary of Defense is authorized to provide funeral transportation and living expenses benefits for the family of any deceased member of the Armed Forces who shall have died while classified as a prisoner of war or as missing in action during the Vietnam conflict and whose remains shall have been returned to the United States after January 27, 1973.

Deceased Vietnam POW's and MIA's.

(b) Such benefits shall include transportation roundtrip from such family members' places of residence to the place of burial for such deceased member of the Armed Forces, living expenses and other such allowances as the Secretary shall deem appropriate.

Eligible family
members.

(c) Eligible family members shall include the deceased's widow, children, stepchildren, mother, father, stepfather and stepmother, or if none of these shall desire to be granted such benefits, the deceased's brothers, sisters, halfbrothers and halvesisters.

"(E) Provision shall be made for a continuum of coordinated treatment services so that a person who leaves a facility or a form of treatment will have available and utilize other appropriate treatment.

"(3) The laws of the State respecting involuntary commitment of alcoholics are consistent with the provisions of section 14 of the Uniform Act which protect individual rights.

"(4) The application of the State contains such assurances as the Secretary may require to carry out the purposes of this section. For purposes of subsection (a), the term 'basic provisions of the Uniform Alcoholism and Intoxication Treatment Act' shall not in the

SEC. 101. (a) The Congress hereby finds and declares that—

42 USC 5121.

(1) because disasters often cause loss of life, human suffering, loss of income, and property loss and damage; and

special measures, designed to assist the efforts of the affected States in expediting the rendering of aid, assistance, and emergency services, and the reconstruction and rehabilitation of devastated areas, are necessary.

(b) It is the intent of the Congress, by this Act, to provide an orderly and continuing means of assistance by the Federal Government to State and local governments in carrying out their responsibilities to alleviate the suffering and damage which result from such disasters by—

- (1) revising and broadening the scope of existing disaster relief programs;
- (2) encouraging the development of comprehensive disaster preparedness and assistance plans, programs, capabilities, and organizations by the States and by local governments;
- (3) achieving greater coordination and responsiveness of disaster preparedness and relief programs;
- (4) encouraging individuals, States, and local governments to protect themselves by obtaining insurance coverage to supplement or replace governmental assistance;
- (5) encouraging hazard mitigation measures to reduce losses from disasters, including development of land use and construction regulations;
- (6) providing Federal assistance programs for both public and private losses sustained in disasters; and
- (7) providing a long-range economic recovery program for major disaster areas.

TITLE III—DISASTER ASSISTANCE ADMINISTRATION

PROCEDURES

42 USC 5141.

SEC. 301. (a) All requests for a determination by the President that an emergency exists shall be made by the Governor of the affected State. Such request shall be based upon the Governor's finding that the situation is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local governments and that Federal assistance is necessary. The Governor's request will furnish information describing State and local efforts and resources which have been or will be used to alleviate the emergency, and will define the type and extent of Federal aid required. Based upon such Governor's request, the President may determine that an emergency exists which warrants Federal assistance.

(b) All requests for a declaration by the President that a major disaster exists shall be made by the Governor of the affected State. Such Governor's request shall be based upon a finding that the disaster is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local governments and that Federal assistance is necessary. As a part of this request, and as a prerequisite to major disaster assistance under the Act, the Governor shall take appropriate action under State law and direct execution of the State's emergency plan. He shall furnish information on the extent and nature of State resources which have been or will be used to alleviate the conditions of the disaster, and shall certify that for the current disaster, State and local government obligations and expenditures (of which State commitments must be a significant proportion) will constitute the expenditure of a reasonable amount of the funds of such State and local governments for alleviating the damage, loss, hardship, or suffering resulting from such disaster. Based upon such Governor's request, the President may declare that a major disaster exists, or that an emergency exists.

FEDERAL ASSISTANCE

42 USC 5142.

The President may prescribe such rules and regulations as may be necessary and proper to carry out any of the provisions of this Act, and he may exercise any power or authority conferred on him by any section of this Act either directly or through such Federal agency as he may designate.

regulations.

(b) Any Federal agency charged with the administration of a Federal assistance program is authorized, if so requested by the applicant State or local authorities, to modify or waive, for a major disaster, such administrative conditions for assistance as would otherwise prevent the giving of assistance under such programs if the inability to meet such conditions is a result of the major disaster.

(c) Notwithstanding any other provision of law, any repair, restoration, reconstruction, or replacement of farm fencing damaged or destroyed as a result of any major disaster shall be considered an emergency conservation measure eligible for payments under chapter I of the Third Supplemental Appropriation Act, 1957, or any other provision of law.

36 USC 1.

(4) take such other action, consistent with authority delegated to him by the President, and consistent with the provisions of this Act, as he may deem necessary to assist local citizens and public officials in promptly obtaining assistance to which they are entitled.

(b) The President shall assure that no person, business concern, or other entity receives any Federal assistance for any part of a loss suffered as the result of a major disaster if such person, concern, or entity received compensation from insurance or any other source for that part of such a loss. Partial compensation for a loss or a part of a loss resulting from a major disaster shall not preclude additional Federal assistance for any part of such a loss not compensated otherwise.

(c) Whenever the President determines (1) that a person, business concern, or other entity has received assistance under this Act for a loss and that such person, business concern or other entity received assistance for the same loss from another source, and (2) that the amount received from all sources exceeded the amount of the loss, he shall direct such person, business concern, or other entity to pay to the Treasury an amount, not to exceed the amount of Federal assistance received, sufficient to reimburse the Federal Government for that part of the assistance which he deems excessive.

FEDERAL FACILITIES

SEC. 401. (a) The President may authorize any Federal agency to repair, reconstruct, restore, or replace any facility owned by the United States and under the jurisdiction of such agency which is damaged or destroyed by any major disaster if he determines that such repair, reconstruction, restoration, or replacement is of such importance and urgency that it cannot reasonably be deferred pending the enactment of specific authorizing legislation or the making of an appropriation for such purposes, or the obtaining of congressional committee approval.

42 USC 5171.

(b) In order to carry out the provisions of this section, such repair, reconstruction, restoration, or replacement may be begun notwithstanding a lack or an insufficiency of funds appropriated for such purpose, where such lack or insufficiency can be remedied by the transfer, in accordance with law, of funds appropriated to that agency for another purpose.

(c) In implementing this section, Federal agencies shall evaluate the natural hazards to which these facilities are exposed and shall take appropriate action to mitigate such hazards, including safe land-use and construction practices, in accordance with standards prescribed by the President.

REPAIR AND RESTORATION OF DAMAGED FACILITIES

SEC. 402. (a) The President is authorized to make contributions to State or local governments to help repair, restore, reconstruct, or replace public facilities belonging to such State or local governments which were damaged or destroyed by a major disaster.

42 USC 5172.

(b) The President is also authorized to make grants to help repair, restore, reconstruct, or replace private nonprofit educational, utility, emergency, medical, and custodial care facilities, including those for the aged or disabled, and facilities on Indian reservations as defined by the President, which were damaged or destroyed by a major disaster.

(c) For those facilities eligible under this section which were in the process of construction when damaged or destroyed by a major disaster, the grant shall be based on the net costs of restoring such facilities substantially to their predisaster condition.

(d) For the purposes of this section, "public facility" includes any publicly owned flood control, navigation, irrigation, reclamation, public power, sewage treatment and collection, water supply and distribution, watershed development, or airport facility, any non-Federal-aid street, road, or highway, any other public building, structure, or system including those used for educational or recreational purposes, and any park.

design of such facility as it existed immediately prior to such disaster and in conformity with current applicable codes, specifications, and standards.

(f) In those cases where a State or local government determines that public welfare would not be best served by repairing, restoring, reconstructing, or replacing particular public facilities owned or controlled by that State or that local government which have been damaged or destroyed in a major disaster, it may elect to receive, in lieu of the contribution described in subsection (e) of this section, a contribution based on 90 per centum of the Federal estimate of the total cost of repairing, restoring, reconstructing, or replacing all damaged facilities owned by it within its jurisdiction. The cost of repairing, restoring, reconstructing, or replacing damaged or destroyed public facilities shall be estimated on the basis of the design of each such facility as it existed immediately prior to such disaster and in conformity with current applicable codes, specifications and standards. Funds contributed under this subsection may be expended either to repair or restore certain selected damaged public facilities or to construct new public facilities which the State or local government determines to be necessary to meet its needs for governmental services and functions in the disaster-affected area.

DEBRIS REMOVAL

42 USC 5173.

SEC. 403. (a) The President, whenever he determines it to be in the public interest, is authorized—

(1) through the use of Federal departments, agencies, and instrumentalities, to clear debris and wreckage resulting from a major disaster from publicly and privately owned lands and waters; and

(2) to make grants to any State or local government for the purpose of removing debris or wreckage resulting from a major disaster from publicly or privately owned lands and waters.

(b) No authority under this section shall be exercised unless the affected State or local government shall first arrange an unconditional authorization for removal of such debris or wreckage from public and private property, and, in the case of removal of debris or wreckage from private property, shall first agree to indemnify the Federal Government against any claim arising from such removal.

TEMPORARY HOUSING ASSISTANCE

42 USC 5174.

SEC. 404. (a) The President is authorized to provide, either by purchase or lease, temporary housing, including, but not limited to, unoccupied habitable dwellings, suitable rental housing, mobile homes or other readily fabricated dwellings for those who, as a result of a major disaster, require temporary housing. During the first twelve months of occupancy no rentals shall be established for any such accommodations, and thereafter rentals shall be established, based upon fair market value of the accommodations being furnished, adjusted to take into consideration the financial ability of the occupant. Any mobile home or readily fabricated dwelling shall be placed on a site complete with utilities provided either by the State or local government, or by the owner or occupant of the site who was displaced by the major disaster, without charge to the United States. The President may authorize installation of essential utilities at Federal expense and he may elect to provide other more economical or accessible sites when he determines such action to be in the public interest.

(b) The President is authorized to provide assistance on a temporary basis in the form of mortgage or rental payments to or on behalf of individuals and families who, as a result of financial hardship caused by a major disaster, have received written notice of dispossession or eviction from a residence by reason of foreclosure of any mortgage or lien, cancellation of any contract of sale, or termination of any lease, entered into prior to such disaster. Such assistance shall be provided for a period of not to exceed one year or for the duration of the period of financial hardship, whichever is the lesser.

(c) In lieu of providing other types of temporary housing after a major disaster, the President is authorized to make expenditures for the purpose of repairing or restoring to a habitable condition owner-occupied private residential structures made uninhabitable by a major disaster which are capable of being restored quickly to a habitable condition with minimal repairs. No assistance provided under this section may be used for major reconstruction or rehabilitation of damaged property.

(d) (1) Notwithstanding any other provision of law, any temporary housing acquired by purchase may be sold directly to individuals and families who are occupants of temporary housing at prices that are fair and equitable, as determined by the President.

(2) The President may sell or otherwise make available temporary housing units directly to States, other governmental entities, and voluntary organizations. The President shall impose as a condition of transfer under this paragraph a covenant to comply with the provisions of section 311 of this Act requiring nondiscrimination in occupancy of such temporary housing units. Such disposition shall be limited to units purchased under the provisions of subsection (a) of this section and to the purposes of providing temporary housing for disaster victims in emergencies or in major disasters.

Nondiscrimination.

PROTECTION OF ENVIRONMENT

SEC. 405. No action taken or assistance provided pursuant to sections 305, 306, or 403 of this Act, or any assistance provided pursuant to section 402 or 419 of this Act that has the effect of restoring facilities substantially as they existed prior to the disaster, shall be deemed a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (83 Stat. 852). Nothing in this section shall alter or affect the applicability of the National Environmental Policy Act of 1969 (83 Stat. 852) to other Federal actions taken under this Act or under any other provision of law.

[H. R. 12670]

To amend section 301 of title 37, United States Code, relating to incentive pay, to attract and retain volunteers for aviation crew member duties, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Aviation Career Incentive Act of 1974".

SEC. 2. Chapter 5 of title 37, United States Code, is amended as follows:

(1) Section 301(a)(1) is amended by striking out "a crew member" and inserting in lieu thereof "an enlisted crew member".

(2) Section 301(g) is repealed.

(3) The following new section is inserted after section 301 and a corresponding item for that section is inserted in the chapter analysis:

"§ 301a. Incentive pay: aviation career

"(a) (1) Subject to regulations prescribed by the President, a member of a uniformed service who is entitled to basic pay is also entitled to aviation career incentive pay in the amount set forth in subsection (b) of this section for the frequent and regular performance of operational or proficiency flying duty required by orders.

"(2) Aviation career incentive pay shall be restricted to regular and reserve officers who hold, or are in training leading to, an aeronautical rating or designation and who engage and remain in aviation service on a career basis.

"(3) Under regulations prescribed by the Secretary of Defense, the Secretary of Transportation with respect to the Coast Guard when it is not operating as a service in the Navy, or the Secretary of Commerce and the Secretary of Health, Education, and Welfare with respect to members under their respective jurisdiction, an officer (except a flight surgeon or other medical officer) who is entitled to basic pay, holds an aeronautical rating or designation, and is qualified for aviation service under regulations prescribed by the Secretary concerned, is entitled to continuous monthly incentive pay in the amount set forth in subsection (b) of this section that is applicable to him. A flight surgeon or other medical officer who is entitled to basic pay, holds an aeronautical rating or designation, and is qualified for aviation service under regulations prescribed by the Secretary concerned, is not entitled to continuous monthly incentive pay but is entitled to monthly incentive pay in the amounts set forth in subsection (b) of this section for the frequent and regular performance of operational flying duty.

"(4) To be entitled to continuous monthly incentive pay, an officer must perform the prescribed operational flying duties (including flight training but excluding proficiency flying) for 6 of the first 12, and 11 of the first 18, years of his aviation service. However, if an officer performs the prescribed operational flying duties (including flight training but excluding proficiency flying) for at least 9 but less than 11 of the first 18 years of his aviation service, he will be entitled to continuous monthly incentive pay for the first 22 years of his officer service.

"(5) If upon completion of either 12 or 18 years of aviation service it is determined that an officer has failed to perform the minimum prescribed operational flying duty requirements during the prescribed periods of time, his entitlement to continuous monthly incentive pay

ceases. If at the completion of 12 years of aviation service entitlement to continuous monthly incentive pay ceases, entitlement to that pay may again commence at the completion of 18 years of aviation service upon completion of the minimum operational flying duty requirements, such pay to continue for a period of time as prescribed in accordance with this section. However, if entitlement to continuous monthly incentive pay ceases in the case of any officer at the completion of either 12 or 18 years of aviation service, such officer remains entitled to monthly incentive pay for the performance of subsequent operational or proficiency flying duties up to the maximum period of time prescribed in accordance with this section.

Definitions.

“(6) For the purposes of this section, the term—

“(A) ‘operational flying duty’ means flying performed under competent orders by rated or designated members while serving in assignments in which basic flying skills normally are maintained in the performance of assigned duties as determined by the Secretary concerned, and flying performed by members in training that leads to the award of an aeronautical rating or designation; and

“(B) ‘proficiency flying duty’ means flying performed under competent orders by rated or designated members while serving in assignments in which such skills would normally not be maintained in the performance of assigned duties.

“(b) A member who satisfies the requirements described in subsection (a) of this section is entitled to monthly incentive pay as follows:

“(1) For an officer in pay grades O-1 through O-10 who is qualified under subsection (a) of this section:

“Phase I	
	Years of aviation service (including flight training) as an officer
“Monthly rate:	
\$100-----	2 or less.
\$125-----	Over 2.
\$150-----	Over 3.
\$165-----	Over 4.
\$245-----	Over 6.

“Phase II	
	Years of services as an officer as computed under section 205
“Monthly rate:	
\$225-----	Over 18.
\$205-----	Over 20.
\$185-----	Over 22.
\$165-----	Over 24 but not over 25.

An officer is entitled to the rates in phase I of this table until he has completed 18 years of service as an officer, after which his entitlement is as prescribed by the rates in phase II, if he has completed at least 6 years of aviation service as an officer. However, if he has over 18 years of service as an officer, but not at least 6 years of aviation service as an officer, he continues to be subject to the rates set forth in phase I of the table that apply to an officer who has less than 6 years of aviation service as an officer. An officer in a pay grade above O-6 is entitled, until he completes 25 years of service as an officer, to be paid at the rates set forth in this table, except that an officer in pay grade O-7 may not be paid at a rate greater than \$160 a month, and an officer in pay grade O-8, or above, may not be paid at a rate greater than \$165 a month.

“(2) For a warrant officer who is qualified under subsection (a) of this section:

“Monthly rate:	Years of aviation service as an officer
\$100-----	2 or less.
\$110-----	Over 2.
\$200-----	Over 6.

For the purposes of clauses (1) and (2) of this subsection, the term ‘aviation service’ means the service performed, under regulations prescribed by the Secretary concerned, by an officer, and the years of aviation service are computed beginning with the effective date of the initial order to perform aviation service.

“Aviation service.”

“(c) In time of war, the President may suspend the payment of aviation career incentive pay.

Wartime, payment suspension.

“(d) Under regulations prescribed by the President and to the extent provided for by appropriations, when a member of a reserve component of a uniformed service, or of the National Guard, who is entitled to compensation under section 206 of this title, performs, under orders, duty described in subsection (a) of this section for members entitled to basic pay, he is entitled to an increase in compensation equal to 1/30 of the monthly incentive pay authorized by subsection (b) (1) or (2) of this section, as the case may be, for the performance of that duty by a member of corresponding years of aviation or officer service, as appropriate, who is entitled to basic pay. Such member is entitled to the increase for as long as he is qualified for it, for each regular period of instruction, or period of appropriate duty, at which he is engaged for at least two hours, including that performed on a Sunday or holiday, or for the performance of such other equivalent training, instruction, duty or appropriate duties, as the Secretary may prescribe under section 206(a) of this title. This subsection does not apply to a member who is entitled to basic pay under section 204 of this title.

37 USC 206.

“(e) The Secretary of Defense shall report to Congress before July 1 each year the number of rated members by pay grade who—

SEC. 4. Notwithstanding the amendments made by this Act, an officer who was entitled to incentive pay under section 301(a)(1) of title 37, United States Code, on May 31, 1973, or on the day before the effective date of this Act, if otherwise qualified on the day before the effective date of this Act, is entitled to monthly incentive pay as prescribed in either clause (1) or (2) of this section, as follows:

Ante, p. 177.

(A) in the amount he was receiving under section 301 (b) of that title on May 31, 1973, or on the day before the effective date of this Act, but with no entitlement after either of those dates, as applicable, to any longevity pay increases or increases resulting from promotion to a higher grade until such time as the rate to which he is entitled under section 301a (b) of that title, as added by this Act, is equal to or greater than the amount he was receiving under that section on May 31, 1973, or on the day before the effective date of this Act, and thereafter his entitlement is as prescribed by that section, as added by this Act; or

(2) If he is credited with more than 6 years of aviation service as an officer, or less than 6 years of aviation service but more than 12 years of service as an officer, he may receive monthly incentive pay at the rate prescribed in the table in section 301a (b) of title 37, United States Code, as added by this Act, that is applicable to him, or \$165, whichever is greater, for not more than 36 months after the effective date of this Act, notwithstanding the provisions of section 301a (a) of that title, as added by this Act, with respect to prescribed operational flying duties (including flight training but excluding proficiency flying). However, under this clause, an officer who is assigned to the pay grade O-7 on the effective date of this Act, or is promoted to the pay grade O-7 during the 36-month period following the effective date of this Act, may not receive more than \$160 per month while assigned to that grade.

The amount to which a reserve officer who is entitled to compensation under section 206 of title 37, United States Code, is entitled under this section is governed by the provisions of section 301a (d) of that title, as added by this Act.

Each such grant shall be made under such conditions as the Administrator shall determine to be required to insure that the United States will receive therefrom benefit adequate to justify the making of that grant. None of the funds appropriated for "Research and development" pursuant to this Act may be used in accordance with this subsection for the construction of any major facility, the estimated cost of which, including collateral equipment, exceeds \$250,000, unless the Administrator or his designee has notified the Speaker of the House of Representatives and the President of the Senate and the Committee on Science and Astronautics of the House of Representatives and the Committee on Aeronautical and Space Sciences of the Senate of the nature, location, and estimated cost of such facility.

House, President
of the Senate and
congressional
committees.

(e) When so specified in an appropriation Act, (1) any amount appropriated for "Research and development" or for "Construction of facilities" may remain available without fiscal year limitation, and (2) maintenance and operation of facilities, and support services contracts may be entered into under the "Research and program management" appropriation for periods not in excess of twelve months beginning at any time during the fiscal year.

Limitations.

(g) Of the funds appropriated pursuant to subsections 1(a) and 1(c), not in excess of \$10,000 for each project, including collateral equipment, may be used for construction of new facilities and additions to existing facilities, and not in excess of \$25,000 for each project, including collateral equipment, may be used for rehabilitation or modification of facilities: *Provided*, That of the funds appropriated pursuant to subsection 1(a), not in excess of \$250,000 for each project, including collateral equipment, may be used for any of the foregoing for unforeseen programmatic needs.

(h) The authorization for the appropriation to the National Aeronautics and Space Administration of \$10,900,000, which amount represents that part of the authorization provided for in section 1(b) (12) (I) of the National Aeronautics and Space Administration Authorization Act, 1974, for which appropriations have not been made, shall expire on the date of the enactment of this Act.

Not to exceed one-half of 1 per centum of the funds appropriated pursuant to subsection 1(a) hereof may be transferred to the "Construction of facilities" appropriation, and, when so transferred, together with \$10,000,000 of the funds appropriated pursuant to subsection 1(b) hereof (other than funds appropriated pursuant to paragraph (19) of such subsection) shall be available for expenditure to construct, expand, or modify laboratories and other installations at any location (including locations specified in subsection 1(b)), if (1) the Administrator determines such action to be necessary because of changes in the national program of aeronautical and space activities or new scientific or engineering developments, and (2) he determines that deferral of such action until the enactment of the next Authorization Act would be inconsistent with the interest of the Nation in aeronautical and space activities. The funds so made available may be expended to acquire, construct, convert, rehabilitate, or install permanent or temporary public works, including land acquisition, site preparation, appurtenances, utilities, and equipment. No portion of such sums may be obligated for expenditure or expended to construct, expand, or modify laboratories and other installations unless (A) a period of thirty days has passed after the Administrator or his designee has transmitted to the Speaker of the House of Representatives and to the President of the Senate and to the Committee on Science and Astronautics of the House of Representatives and to the Committee on Aeronautical and Space Sciences of the Senate a written report containing a full and complete statement concerning (1) the nature of such construction, expansion, or modification, (2) the cost

(3) no amount appropriated pursuant to this Act may be used for any program which has not been presented to or requested of either such committee,

unless (A) a period of thirty days has passed after the receipt by the Speaker of the House of Representatives and the President of the Senate and each such committee of notice given by the Administrator or his designee containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action, or (B) each such committee before the expiration of such period has transmitted to the Administrator written notice to the effect that such committee has no objection to the proposed action.

House, President
of the Senate and
congressional
committees.

15 USC 792.

SEC. 2. COAL CONVERSION AND ALLOCATION.

(a) The Federal Energy Administrator—

Powerplant and
fuel burning in-
stallations.

(1) shall, by order, prohibit any powerplant, and
(2) may, by order, prohibit any major fuel burning installation, other than a powerplant, from burning natural gas or petroleum products as its primary energy source, if the Federal Energy Administrator determines such powerplant or installation on the date of enactment of this Act has the capability and necessary plant equipment to burn coal, and if the requirements of subsection (b) are met.

(b) The requirements referred to in subsection (a) are as follows:

(1) An order under subsection (a) may not be issued with respect to a powerplant or installation unless the Federal Energy Administrator finds (A) that the burning of coal by such plant or installation, in lieu of petroleum products or natural gas, is practicable and consistent with the purposes of this Act, (B) that coal and coal transportation facilities will be available during the period the order is in effect, and (C) in the case of a powerplant, that the prohibition under subsection (a) will not impair the reliability of service in the area served by such plant. Such an order shall be rescinded or modified to the extent the Federal Energy Administrator determines that any requirement described in subparagraph (A), (B), or (C) of this paragraph is no longer met; and such an order may at any time be modified if the Federal Energy Administrator determines that such order, as modified, complies with the requirements of this section.

(2) (A) Before issuing an order under subsection (a) which is applicable to a powerplant or installation for a period ending on or before June 30, 1975, the Federal Energy Administrator (i) shall give notice to the public and afford interested persons an opportunity for written presentations of data, views, and arguments, (ii) shall consult with the Administrator of the Environmental Protection Agency, and (iii) shall take into account the likelihood that the powerplant or installation will be permitted to burn coal after June 30, 1975.

Public notice.

(B) An order described in subparagraph (A) of this paragraph shall not become effective until the date which the Administrator of the Environmental Protection Agency certifies pursuant to section 119(d) (1) (A) of such Act is the earliest date that such plant or installation will be able to comply with the air pollution requirements which will be applicable to it. Such order shall not be effective for any period certified by the Administrator of the Environmental Protection Agency pursuant to section 119(d) (3) (B) of such Act.

(3) (A) Before issuing an order under subsection (a) which is applicable to a powerplant or installation after June 30, 1975 (or modifying an order to which paragraph (2) applies, so as to apply such order to a powerplant or installation after such date), the Federal Energy Administrator shall give notice to the public and afford interested persons an opportunity for oral and written presentations of data, views, and arguments.

(B) An order (or modification thereof) described in subparagraph (A) of this paragraph shall not become effective until (i) the Administrator of the Environmental Protection Agency notifies the Federal Energy Administrator under section 119(d) (1) (B) of the Clean Air Act that such plant or installation will be able on and after July 1, 1975, to burn coal and to comply with all applicable air pollution requirements without a compliance date extension under section 119(c) of such Act, or (ii) if such notification is not given, the date which the Administrator of the Environmental Protection Agency certifies pursuant to section 119(d) (1) (B) of such Act is the earliest date that such plant or installation will be able to comply with all applicable requirements of such section 119. Such order (or modification) shall not be effective during any period certified by the Administrator of the Environmental Protection Agency under section 119(d) (3) (B) of such Act.

Post, p. 248.

(c) The Federal Energy Administrator may require that any powerplant in the early planning process (other than a combustion gas turbine or combined cycle unit) be designed and constructed so as to be capable of using coal as its primary energy source. No powerplant may be required under this subsection to be so designed and constructed, if the Administrator determines that (1) to do so is likely to result in an impairment of reliability or adequacy of service, or (2) an adequate and reliable supply of coal is not expected to be available. In considering whether to impose a design and construction requirement under this subsection, the Federal Energy Administrator shall consider the existence and effects of any contractual commitment for the construction of such facilities and the capability of the owner to recover any

capital investment made as a result of any requirement imposed under this subsection.

(d) The Federal Energy Administrator may, by rule or order, allocate coal (1) to any powerplant or major fuel-burning installation to which an order under subsection (a) has been issued, or (2) to any other person to the extent necessary to carry out the purposes of this Act.

(e) For purposes of this section:

“Powerplant.”

(1) The term “powerplant” means a fossil-fuel fired electric generating unit which produces electric power for purposes of sale or exchange.

“Coal.”

(2) The term “coal” includes coal derivatives.

Expiration and effective dates.

(f) (1) Authority to issue orders or rules under subsections (a) through (d) of this section shall expire at midnight, June 30, 1975. Such a rule or order may take effect at any time before January 1, 1979.

(2) Authority to amend, repeal, rescind, modify, or enforce such rules or orders shall expire at midnight, December 31, 1978; but the expiration of such authority shall not affect any administrative or judicial proceeding which relates to any act or omission which occurred prior to January 1, 1979.

“(b) (1) (A) The Administrator may, for any period beginning on or after the date of enactment of this section and ending on or before June 30, 1975, temporarily suspend any stationary source fuel or emission limitation as it applies to any person—

Temporary suspension.

“(i) if the Administrator finds that such person will be unable to comply with any such limitation during such period solely because of unavailability of types or amounts of fuels (unless such unavailability results from an order under section 2(a) of the Energy Supply and Environmental Coordination Act of 1974), or

“(ii) if such person is a source which is described in subsection (c) (1) (A) or (B) of this section and which has converted to coal, and the Administrator finds that the source will be able to comply during the period of the suspension with all primary standard conditions which will be applicable to such source.

Any suspension under this paragraph, the imposition of any interim requirement on which such suspension is conditioned under paragraph (3) of this subsection, and the imposition of any primary standard condition which relates to such suspension, shall be exempted from any procedural requirements set forth in this Act or in any other provision of Federal, State, or local law; except as provided in subparagraph (B) of this paragraph.

“(B) The Administrator shall give notice to the public and afford interested persons an opportunity for written and oral presentations of data, views, and arguments prior to issuing a suspension under subparagraph (A), or denying an application for such a suspension, unless otherwise provided by the Administrator for good cause found and published in the Federal Register. In any case, before issuing such a suspension, he shall give actual notice to the Governor of the State in which the affected source or sources are located, and to appropriate local governmental officials (as determined by the Administrator). The issuing or denial of such a suspension, the imposition of an interim requirement, and the imposition of any primary standard condition shall be subject to judicial review only on the grounds specified in paragraph (2) (B), (2) (C), or (2) (D), of section 706 of title 5, United States Code, and shall not be subject to any proceeding under section 304(a) (2) or 307 (b) and (c) of this Act.

Judicial review.

42 USC 1857h-2, 1857h-5.

“(2) In issuing any suspension under paragraph (1), the Administrator is authorized to act on his own motion or upon application by any person (including a public officer or public agency).

“(3) Any suspension under paragraph (1) shall be conditioned upon compliance with such interim requirements as the Administrator determines are reasonable and practicable. Such interim requirements shall include, but need not be limited to, (A) a requirement that the persons receiving the suspension comply with such reporting requirements as the Administrator determines may be necessary, (B) such measures as the Administrator determines are necessary to avoid an imminent and substantial endangerment to health of persons, and

Interim requirements, compliance.

(C) in the case of a suspension under paragraph (1) (A) (i), requirements that the suspension shall be inapplicable during any period during which fuels which would enable compliance with the suspended stationary source fuel or emission limitations are in fact reasonably available (as determined by the Administrator) to such person.

Compliance
date, extension.

“(c) (1) Except as provided in paragraph (2) of this subsection, the Administrator shall issue a compliance date extension to any fuel-burning stationary source—

“(A) which is prohibited from using petroleum products or natural gas by reason of an order which is in effect under section 2 (a) and (b) of the Energy Supply and Environmental Coordination Act of 1974, or

“(B) which the Administrator determines began conversion to the use of coal as its primary energy source during the period beginning on September 15, 1973, and ending on March 15, 1974, and which, on or after September 15, 1973, converts to the use of coal as its primary energy source. If a compliance date extension is issued to a source, such source shall not, until January 1, 1979, be prohibited, by reason of the application of any air pollution requirement, from burning coal which is available to such source, except as provided in subsection (d) (3). For purposes of this paragraph, the term ‘began conversion’ means action by the source during the period beginning on September 15, 1973, and ending on March 15, 1974 (such as entering into a contract binding on such source for obtaining coal, or equipment or facilities to burn coal; expanding substantial sums to permit such source to burn coal; or applying for an air pollution variance to enable such source to burn coal) which the Administrator finds evidences a decision (made prior to March 15, 1974) to convert to burning coal as a result of the unavailability of an adequate supply of fuels required for compliance with the applicable implementation plan, and a good faith effort to expeditiously carry out such decision.

“Began conver-
sion.”

Conditions.

“(2) (A) A compliance date extension under paragraph (1) of this subsection may be issued to a source only if—

(i) the Administrator finds that such source will not be able to burn coal which is available to such source in compliance with all applicable air pollution requirements without a compliance date extension,

(ii) the Administrator finds that the source will be able during the period of the compliance date extension to comply with all the primary standard conditions which are required under subsection (d) (2) to be applicable to such source, and with the regional limitation if applicable to such source, and

(iii) the source has submitted to the Administrator a plan for compliance for such source which the Administrator has approved. A plan submitted under clause (iii) of the preceding sentence shall be approved only if it meets the requirements of regulations prescribed under subparagraph (B). The Administrator shall approve or disapprove any such plan within 60 days after such plan is submitted.

Regulations.

Compliance
schedule.

“(B) Not later than 90 days after the date of enactment of this section, the Administrator shall prescribe regulations requiring that any source to which a compliance date extension applies submit and obtain approval of its means for and schedule of compliance with the require-

ments of subparagraph (C) of this paragraph. Such regulations shall include requirements that such schedules shall include dates by which any such source must—

“(i) enter into contracts (or other obligations enforceable against such source) which the Administrator has approved as being adequate to provide for obtaining a long-term supply of coal which enables such source to achieve the emission reduction required by subparagraph (C), or

Contracts,
approval.

“(ii) if coal which enables such source to achieve such emission reduction is not available to such source, enter into contracts (or other obligations enforceable against such source) which the Administrator has approved as being adequate to provide for obtaining (I) a long-term supply of other coal, and (II) continuous emission reduction systems necessary to permit such source to burn such coal, and to achieve the degree of emission reduction required by subparagraph (C).

Regulations under this subparagraph shall provide that contracts or other obligations required to be approved under this subparagraph must be approved before they are entered into (except that a contract or obligation which was entered into before the date of enactment of this section may be approved after such date).

“(C) Regulations under subparagraph (B) shall require that the source achieve the most stringent degree of emission reduction that such source would have been required to achieve under the applicable implementation plan which was in effect on the date of submittal (under subparagraph (B) of this paragraph) of the means for and schedule of compliance (or if no applicable implementation plan was in effect on such date, under the first applicable implementation plan which takes effect after such date). Such degree of emission reduction shall be achieved as soon as practicable, but not later than December 31, 1978; except that, in the case of a source for which a continuous emission reduction system is required for sulfur-related emissions, reduction of such emissions shall be achieved on a date designated by the Administrator (but not later than January 1, 1979). Such regulations shall also include such interim requirements as the Administrator determines are reasonable and practicable, including requirements described in subparagraphs (A) and (B) of subsection (b) (3) and requirements to file progress reports.

Emission re-
duction, require-
ments.

“(D) A source which is issued a compliance date extension under this subsection, and which is located in an air quality control region in which a national primary ambient air quality standard for an air pollutant is not being met, may not emit such pollutant in amounts which exceed any emission limitation (and may not violate any other requirement) which applies to such source, under the applicable implementation plan for such pollutant. For purposes of this subparagraph, applicability of any such limitation or requirement to a source shall be determined without regard to this subsection or subsection (b).

Progress
reports.

“(3) A source to which this subsection applies may, upon the expiration of a compliance date extension, receive a one-year postponement of the application of any requirement of an applicable implementation plan under the conditions and in the manner provided in section 110(f).

Public notice.

“(4) The Administrator shall give notice to the public and afford an opportunity for oral and written presentations of data, views, and arguments before issuing any compliance date extension, prescribing any regulation under paragraph (2) of this subsection, making any finding under paragraph (2)(A) of this subsection, imposing any requirement on a source pursuant to paragraph (2) or any regulation thereunder, prescribing a primary standard condition under subsection (d)(2) which applies to a source to which an extension is issued under this subsection, or acting on any petition under subsection (d)(2)(C).

“(d)(1)(A) Whenever the Federal Energy Administrator issues an order under section 2(a) of the Energy Supply and Environmental Coordination Act of 1974 which will not apply after June 30, 1975, the Administrator of the Environmental Protection Agency shall certify to him—

“(i) in the case of a source to which no suspension will be issued under subsection (b), the earliest date on which such source will be able to burn coal and to comply with all applicable air pollution requirements, or

“(ii) in the case of a source to which a suspension will be issued under subsection (b) of this section, the date determined under paragraph (2)(B) of this subsection.

“(B) Whenever the Federal Energy Administrator issues an order under section 2(a) of such Act which will apply after June 30, 1975, the Administrator of the Environmental Protection Agency shall notify him if such source will be able, on and after July 1, 1975, to burn coal and to comply with all applicable air pollution requirements without a compliance date extension under subsection (c). If such notification is not given—

“(i) in the case of a source which is eligible for a compliance date extension under subsection (c), the Administrator of the Environmental Protection Agency shall certify to the Federal Energy Administrator the date determined under paragraph (2)(B) of this subsection, and

“(ii) in the case of a source which is not eligible for such an extension, the Administrator of the Environmental Protection Agency shall certify to the Federal Energy Administrator the earliest date on which the source will be able to burn coal and to comply with all applicable air pollution requirements.

Emission limitations.

“(2)(A) The Administrator of the Environmental Protection Agency, after consultation with appropriate States, shall prescribe (and may from time to time, after such consultation, modify) emission limitations, requirements respecting pollution characteristics of coal, or other enforceable measures for control of emissions, for each source to which a suspension under subsection (b)(1)(A)(ii) will apply, and for each source to which a compliance date extension under subsection (c)(1) will apply. Such limitations, requirements, and measures shall be those which he determines must be complied with by the source in order to assure (throughout the period that the suspension or extension will be in effect) that the burning of coal by such source will not result in emissions which cause or contribute to concentrations of any air pollutant in excess of any national primary ambient air quality standard for such pollutant.

“(B) Whenever the Administrator prescribes a limitation, requirement, or measure under subparagraph (A) of this paragraph with respect to a source, he shall determine the earliest date on which such source will be able to comply with such limitation, requirement, or measure, and with any regional limitation applicable to such source.

“(C) An air pollution control agency may petition the Administrator (A) to modify any limitation, requirement, or other measure under this paragraph so as to assure compliance with the requirements of this paragraph, or (B) to issue to the Federal Energy Administration the certification described in paragraph (3)(B) on the grounds described in clause (iii) thereof. The Administrator shall take the action requested in the petition, or deny the petition, within 90 days after the date of receipt of the petition.

Emission limitations, petition for modification.

“(3) (A) If the Administrator determines that a source to which a suspension under subsection (b) (1) (A) (ii) or to which a compliance date extension under subsection (c) (1) applies is not in compliance with any primary standard condition, or that a source to which a compliance date extension applies is not in compliance with a regional limitation applicable to it, he shall (except as provided in subparagraph (B)) either—

Compliance.

“(i) enforce compliance with such condition or limitation under section 113, or

“(ii) (after notice to the public and affording an opportunity for interested persons to present data, views, and arguments, including oral presentations, to the extent practicable) revoke such suspension or compliance date extension.

Public notice.

“(B) If the Administrator finds that for any period—

“(i) a source, to which an order under section 2(a) of the Energy Supply and Environmental Coordination Act of 1974 applies, will be unable to comply with a primary standard condition or regional limitation,

“(ii) such a source will not be in compliance with such a condition or limitation, but such condition or limitation cannot be enforced because of a court order restraining its enforcement, or

“(iii) the burning of coal by such a source will result in an increase in emissions of any air pollutant for which national ambient air quality standards have not been promulgated (or an air pollutant which is transformed in the atmosphere into an air pollutant for which such a standard has not been promulgated), and that such increase may cause (or materially contribute to) a significant risk to public health,

he shall notify the Federal Energy Administrator of his finding and certify the period for which such order under such section 2(a) shall not be in effect with respect to such source. Subject to the conditions of the preceding sentence, such certification may be modified from time to time. For purposes of this subsection, subsection (c), and section 2 (a) or (b) of the Energy Supply and Environmental Coordination Act of 1974, a source shall be considered unable to comply with an air pollution requirement (including a primary standard condition or regional limitation) only if necessary technology or other alternative methods of control are not available or have not been available for a sufficient period of time.

"(4) Nothing in this Act shall prohibit a State, political subdivision of a State, or agency or instrumentality of either, from enforcing any primary standard condition or regional limitation.

"(5) A conversion to coal (A) to which a suspension under subsection (b) or a compliance date extension under subsection (c) applies or (B) by reason of an order under section 2(a) of the Energy Supply and Environmental Coordination Act of 1974 shall not be deemed to be a modification for purposes of section 111(a) (2) and (4) of this Act.

42 USC 1857c-6.
Continuous
emission reduc-
tion systems,
manufacturing
priorities, rules.

"(e) The Administrator may, by rule, establish priorities under which manufacturers of continuous emission reduction systems necessary to carry out subsection (c) shall provide such systems to users thereof, if he finds that priorities must be imposed in order to assure that such systems are first provided to sources in air quality control regions in which national primary ambient air quality standards have not been achieved. No rule under this subsection may impair the obligation of any contract entered into before the date of enactment of this section. To the extent necessary to carry out this section, the Administrator may prohibit any State or political subdivision of a State, or an agency or instrumentality of either, from requiring any person to use a continuous emission reduction system for which priorities have been established under this subsection, except in accordance with such priorities.

"(f) No State, political subdivision of a State, or agency or instrumentality of either, may require any person to whom a suspension has been issued under subsection (b) (1) to use any fuel the unavailability of which is the basis of such person's suspension (except that this subsection shall not apply to requirements identical to Federal requirements under subsection (b) (3) or subsection (d) (2)).

Unlawful acts.

"(g) (1) It shall be unlawful for any person to whom a suspension has been issued under subsection (b) (1) to violate any requirement on which the suspension is conditioned pursuant to subsection (b) (3) or any primary standard condition applicable to him.

"(2) It shall be unlawful for any person to fail to comply with any requirement under subsection (c), or any regulation, plan, or schedule thereunder (including a primary standard condition or regional limitation), which is applicable to such person.

"(3) It shall be unlawful for any person to violate any rule under subsection (e).

"(4) It shall be unlawful for any person to fail to comply with an interim requirement under subsection (i) (3).

"(h) Nothing in this section shall affect the power of the Administrator to deal with air pollution presenting an imminent and substantial endangerment to the health of persons under section 303 of this Act.

42 USC 1857h-1.
Electric gener-
ating powerplants,
cessation of
operation, post-
ponement.

"(i) (1) In order to reduce the likelihood of early phaseout of existing electric generating powerplants, any electric generating powerplant (A) which, because of the age and condition of the plant, is to be taken out of service permanently no later than January 1, 1980, according to the power supply plan (in existence on January 1, 1974) of the owner or operator of such plant, (B) for which a certification to that effect has been filed by the owner or operator of the plant with the Environmental Protection Agency and the Federal Power Commission, and (C) for which such Commission has determined that

the certification has been made in good faith and that the plan to cease operations no later than January 1, 1980, will be carried out as planned in light of existing and prospective power supply requirements, shall be eligible for a single one-year postponement as provided in paragraph (2).

“(2) Prior to the date on which any powerplant eligible under paragraph (1) is required to comply with any requirement of an applicable implementation plan, such plant may apply (with the concurrence of the Governor of the State in which such plant is located) to the Administrator to postpone the applicability of such requirement to such plant for not more than one year. If the Administrator determines, after considering the risk to public health and welfare which may be associated with a postponement, that compliance with any such requirement is not reasonable in light of the projected useful life of the plant, the availability of rate base increases to pay for the costs of such compliance, and other appropriate factors, then the Administrator shall grant a postponement of any such requirement.

“(3) The Administrator shall, as a condition of any postponement under paragraph (2), prescribe such interim requirements as are practicable and reasonable in light of the criteria in paragraph (2).

“(j) (1) The Administrator may, after public notice and opportunity for presentation of data, views, and arguments in accordance with section 553 of title 5, United States Code, and after consultation with the Federal Energy Administrator, designate persons with respect to whom fuel exchange requirements should be imposed under paragraph (2) of this subsection. The purpose of such designation shall be to avoid or minimize the adverse impact on public health and welfare of any suspension under subsection (b) of this section or conversion to coal to which subsection (c) applies or of any allocation under section 2(d) of the Energy Supply and Environmental Coordination Act of 1974 or under the Emergency Petroleum Allocation Act of 1973.

Public notice.

“(2) The Federal Energy Administrator shall exercise his authority under section 2(d) of the Energy Supply and Environmental Coordination Act of 1974 and under the Emergency Petroleum Allocation Act of 1973 with respect to persons designated by the Administrator of the Environmental Protection Agency under paragraph (1) in order to require the exchange of any fuel subject to allocation under such Acts effective no later than forty-five days after the date of such designation, unless the Federal Energy Administrator determines, after consultation with the Administrator of the Environmental Protection Agency, that the costs or consumption of fuel, resulting from requiring such exchange, will be excessive.

15 USC 751
note.

“(k) (1) The Administrator shall study, and report to Congress not later than six months after the date of enactment of this section, with respect to—

Study; report to
Congress.

“(A) the present and projected impact of fuel shortages and fuel allocation programs on the program under this Act;

“(B) availability of continuous emission reduction technology (including projections respecting the time, cost, and number of units available) and the effects that continuous emission reduc-

tion systems would have on the total environment and on supplies of fuel and electricity;

“(C) the number of sources and locations which must use such technology based on projected fuel availability data;

“(D) a priority schedule for installation of continuous emission reduction technology, based on public health or air quality;

“(E) evaluation of availability of technology to burn municipal solid waste in electric powerplants or other major fuel burning installations, including time schedules, priorities, analysis of pollutants which may be emitted (including those for which national ambient air quality standards have not been promulgated), and a comparison of health benefits and detriments from burning solid waste and of economic costs;

“(F) evaluation of alternative control strategies for the attainment and maintenance of national ambient air quality standards for sulfur oxides within the time for attainment prescribed in this Act, including associated considerations of cost, time for attainment, feasibility, and effectiveness of such alternative control strategies as compared to stationary source fuel and emission regulations;

“(G) proposed priorities, for continuous emission reduction systems which do not produce solid waste, for sources which are least able to handle solid waste byproducts of such systems;

“(H) plans for monitoring or requiring sources to which this section applies to monitor the impact of actions under this section on concentrations of sulfur dioxide in the ambient air; and

“(I) steps taken pursuant to authority of section 110(a)(3)(B) of this Act.

Publication in
Federal Register.

“(2) Beginning January 1, 1975, the Administrator shall publish in the Federal Register, at no less than one-hundred-and-eighty-day intervals, the following:

“(A) A concise summary of progress reports which are required to be filed by any person or source owner or operator to which subsection (c) applies. Such progress reports shall report on the status of compliance with all requirements which have been imposed by the Administrator under such subsection.

“(B) Up-to-date findings on the impact of this section upon—

“(i) applicable implementation plans, and

“(ii) ambient air quality.”

SEC. 4. IMPLEMENTATION PLAN REVISIONS.

42 USC 1857c-5.

(a) Section 110(a) of the Clean Air Act is amended in paragraph (3) by inserting “(A)” after “(3)” and by adding at the end thereof the following new subparagraph:

Review.

“(B) As soon as practicable, the Administrator shall, consistent with the purposes of this Act and the Energy Supply and Environmental Coordination Act of 1974, review each State's applicable implementation plans and report to the State on whether such plans can be revised in relation to fuel burning stationary sources (or persons supplying fuel to such sources) without interfering with the attainment and maintenance of any national ambient air quality standard within the period permitted in this section. If the Administrator determines that any such plan can be revised, he shall notify the State that a plan revision may be submitted by the State. Any plan revision

which is submitted by the State shall, after public notice and opportunity for public hearing, be approved by the Administrator if the revision relates only to fuel burning stationary sources (or persons supplying fuel to such sources), and the plan as revised complies with paragraph (2) of this subsection. The Administrator shall approve or disapprove any revision no later than three months after its submission."

Public notice
and hearing op-
portunity.

(b) Subsection (c) of section 110 of the Clean Air Act is amended by inserting "(1)" after "(c)"; by redesignating paragraphs (1), (2), and (3) as subparagraphs (A), (B), and (C), respectively, and by adding at the end thereof the following new paragraph:

42 USC 1857c-5.

"(2)(A) The Administrator shall conduct a study and shall submit a report to the Committee on Interstate and Foreign Commerce of the United States House of Representatives and the Committee on Public Works of the United States Senate not later than three months after date of enactment of this paragraph on the necessity of parking surcharge, management of parking supply, and preferential bus/carpool lane regulations as part of the applicable implementation plans required under this section to achieve and maintain national primary ambient air quality standards. The study shall include an assessment of the economic impact of such regulations, consideration of alternative means of reducing total vehicle miles traveled, and an assessment of the impact of such regulations on other Federal and State programs dealing with energy or transportation. In the course of such study, the Administrator shall consult with other Federal officials including, but not limited to, the Secretary of Transportation, the Federal Energy Administrator, and the Chairman of the Council on Environmental Quality.

"(B) No parking surcharge regulation may be required by the Administrator under paragraph (1) of this subsection as a part of an applicable implementation plan. All parking surcharge regulations previously required by the Administrator shall be void upon the date of enactment of this subparagraph. This subparagraph shall not prevent the Administrator from approving parking surcharges if they are adopted and submitted by a State as part of an applicable implementation plan. The Administrator may not condition approval of any implementation plan submitted by a State on such plan's including a parking surcharge regulation.

Parking sur-
charge.

"(C) The Administrator is authorized to suspend until January 1, 1975, the effective date or applicability of any regulations for the management of parking supply or any requirement that such regulations be a part of an applicable implementation plan approved or promulgated under this section. The exercise of the authority under this subparagraph shall not prevent the Administrator from approving such regulations if they are adopted and submitted by a State as part of an applicable implementation plan. If the Administrator exercises the authority under this subparagraph, regulations requiring a review or analysis of the impact of proposed parking facilities before construction which take effect on or after January 1, 1975, shall not apply to parking facilities on which construction has been initiated before January 1, 1975.

Definitions.

“(D) For purposes of this paragraph—

“(i) The term ‘parking surcharge regulation’ means a regulation imposing or requiring the imposition of any tax, surcharge, fee, or other charge on parking spaces, or any other area used for the temporary storage of motor vehicles.

“(ii) The term ‘management of parking supply’ shall include any requirement providing that any new facility containing a given number of parking spaces shall receive a permit or other prior approval, issuance of which is to be conditioned on air quality considerations.

“(iii) The term ‘preferential bus/carpool lane’ shall include any requirement for the setting aside of one or more lanes of a street or highway on a permanent or temporary basis for the exclusive use of buses or carpools, or both.

Promulgation.

“(E) No standard, plan, or requirement, relating to management of parking supply or preferential bus/carpool lanes shall be promulgated after the date of enactment of this paragraph by the Administrator pursuant to this section, unless such promulgation has been subjected to at least one public hearing which has been held in the area affected and for which reasonable notice has been given in such area. If substantial changes are made following public hearings, one or more additional hearings shall be held in such area after such notice.”

“(5)(A) At any time after January 1, 1975, any manufacturer may file with the Administrator an application requesting the suspension for one year only of the effective date of any emission standard required by paragraph (1)(A) with respect to such manufacturer for light-duty vehicles and engines manufactured in model year 1977. The Administrator shall make his determination with respect to any such application within sixty days. If he determines, in accordance

with the provisions of this subsection, that such suspension should be granted, he shall simultaneously with such determination prescribe by regulation interim emission standards which shall apply (in lieu of the standards required to be prescribed by paragraph (1)(A) of this subsection) to emissions of carbon monoxide or hydrocarbons (or both) from such vehicles and engines manufactured during model year 1977."

note.

(b) In order to determine the health effects of emissions of sulfur oxides to the air resulting from any conversions to burning coal to which section 119 of the Clean Air Act applies, the Department of Health, Education, and Welfare shall, through the National Institute of Environmental Health Sciences and in cooperation with the Environmental Protection Agency, conduct a study of chronic effects among exposed populations. (2) The desalting plant shall be designed to treat approximately one hundred and twenty-nine million gallons a day of drain water using advanced technology commercially available. The plant shall effect recovery initially of not less than 70 per centum of the drain water as product water, and shall effect reduction of not less than 90 per centum of the dissolved solids in the feed water. The Secretary shall use sources of electric power supply for the desalting complex that will not diminish the supply of power to preference customers from Federal power systems operated by the Secretary. All costs associated with the desalting plant shall be nonreimbursable.

(c) Replacement of the reject stream from the desalting plant and of any Wellton-Mohawk drainage water bypassed to the Santa Clara Slough to accomplish essential operation except at such times when there exists surplus water of the Colorado River under the terms of the Mexican Water Treaty of 1944, is recognized as a national obligation as provided in section 202 of the Colorado River Basin Project Act (82 Stat. 895). Studies to identify feasible measures to provide adequate replacement water shall be completed not later than June 30, 1980. Said studies shall be limited to potential sources within the States of Arizona, California, Colorado, New Mexico, and those portions of Nevada, Utah, and Wyoming which are within the natural drainage basin of the Colorado River. Measures found necessary to replace the reject stream from the desalting plant and any Wellton-Mohawk drainage bypassed to the Santa Clara Slough to accomplish essential operations may be undertaken independently of the national obligation set forth in section 202 of the Colorado River Basin Project Act.

(2) A motion to discharge may be made only by an individual favoring the bill or resolution, may be made only if supported by one-fifth of the Members of the House involved (a quorum being present), and is highly privileged in the House and privileged in the Senate (except that it may not be made after the committee has reported a bill or resolution with respect to the same special message or the same proposed deferral, as the case may be); and debate thereon shall be limited to not more than 1 hour, the time to be divided in the House equally between those favoring and those opposing the bill or resolution, and to be divided in the Senate equally between, and controlled by, the majority leader and the minority leader or their designees. No amendment that is not germane to the provisions of a rescission bill shall be received. Such leaders, or either of them, may, from the time under their control on the passage of a rescission bill or impoundment resolution, allot additional time to any Senator during the consideration of any amendment, debatable motion, or appeal.

AN ACT

July 23, 1974
[S. 2830]

To amend the Public Health Service Act to provide for greater and more effective efforts in research and public education with regard to diabetes mellitus.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

National Dia-
betes Mellitus
Research and
Education Act.

SHORT TITLE

SECTION 1. This Act may be cited as the “National Diabetes Mellitus Research and Education Act”.

42 USC 289c-2
note.

FINDINGS AND DECLARATION OF PURPOSE

SEC. 2. (a) The Congress makes the following findings:

42 USC 289c-2
note.

(1) Diabetes mellitus is a major health problem in the United States which directly affects perhaps as many as ten million Americans and indirectly affects perhaps as many as fifty million Americans who will pass the tendency to develop diabetes mellitus to their children or grandchildren or to both.

(2) Diabetes mellitus is a family of diseases that has an impact on virtually all biological systems of the human body.

(3) Diabetes mellitus is the fifth leading cause of death from disease, and it is the second leading cause of new cases of blindness.

(4) The severity of diabetes mellitus in children and most adolescents is greater than in adults, which in most cases involves greater problems in the management of the disease.

(5) The complications of diabetes mellitus, particularly cardiovascular degeneration, lead to many other serious health problems.

(6) Uncontrolled diabetes mellitus significantly decreases life expectancy.

(7) There is convincing evidence that the known prevalence of diabetes mellitus has increased dramatically in the past decade.

(8) The citizens of the United States should have a full understanding of the nature of the impact of diabetes mellitus.

(9) The attainment of better methods of diagnosis and treatment of diabetes mellitus deserves the highest priority.

(10) The establishment of regional diabetes research and training centers throughout the country is essential for the development of scientific information and appropriate therapies to deal with diabetes mellitus.

(11) In order to provide for the most effective program against diabetes mellitus it is important to mobilize the resources of the National Institutes of Health as well as the public and private organizations capable of the necessary research and public education in the disease.

(b) It is the purpose of this Act to—

(1) expand the authority of the National Institutes of Health to advance the national attack on diabetes mellitus; and

(2) as part of that attack, to establish a long-range plan to—
(A) expand and coordinate the national research effort against diabetes mellitus;

(B) advance activities of patient education, professional education, and public education which will alert the citizens of the United States to the early indications of diabetes mellitus; and

(C) to emphasize the significance of early detection, proper control, and complications which may evolve from the disease.

- (1) The Army, 785,000;
- (2) The Navy, 540,380;
- (3) The Marine Corps, 196,398;
- (4) The Air Force, 627,535.

SEC. 302. (a) The United States military forces in Europe can reduce headquarters and noncombat military personnel relative to the number of combat personnel located in Europe. Therefore, except in the event of imminent hostilities in Europe, the noncombat component of the total United States military strength in Europe authorized as of June 30, 1974, shall be reduced by 18,000. Such reduction shall be completed not later than June 30, 1976, and not less than 6,000 of such reduction shall be completed on or before June 30, 1975; however, the Secretary of Defense is authorized to increase the combat component strength of United States forces in Europe by the amount of any such reduction made in noncombat personnel. The Secretary of Defense shall report semi-annually to the Congress on all actions taken to improve the combat proportion of United States forces in Europe. The first report shall be submitted not later than March 31, 1975.

(b) For purposes of this section, the combat component of the Army includes only the infantry, cavalry, artillery, armored, combat engineers, special forces, attack assault helicopter units, air defense, and missile combat units of battalion or smaller size; the combat component of the Navy includes only the combat ships (aircraft carrier, cruiser, destroyer, submarine, escort and amphibious assault ships)

(c) The Secretary of Defense shall undertake a specific assessment of the costs and possible loss of nonnuclear combat effectiveness of the military forces of the North Atlantic Treaty Organization countries caused by the failure of the North Atlantic Treaty Organization members, including the United States, to standardize weapons systems, ammunition, fuel, and other military impedimenta for land, air, and naval forces. The Secretary of Defense shall also develop a list of standardization actions that could improve the overall North Atlantic Treaty Organization nonnuclear defense capability or save resources for the alliance as a whole. He shall also evaluate the relative priority and effect of each such action. The Secretary shall submit the results of these assessments and evaluations to the Congress and subsequently shall also cause them to be brought before the appropriate North Atlantic Treaty Organization bodies in order that the suggested actions and recommendations can become an integral part of the overall North Atlantic Treaty Organization review of force goals and development of force plans. The Secretary of Defense shall report semiannually to the Congress on the specific assessments and evaluations made under the above provisions as well as the results achieved with the North Atlantic Treaty Organization allies. The first such report shall be submitted to Congress not later than January 31, 1975.

(d) The total number of United States tactical nuclear warheads located in Europe on the date of enactment of this Act shall not be increased until after June 30, 1975, except in the event of imminent hostilities in Europe. The Secretary of Defense shall study the overall concept for use of tactical nuclear weapons in Europe; how the use of such weapons relates to deterrence and to a strong conventional defense; reductions in the number and type of nuclear warheads which are not essential for the defense structure for Western Europe; and the steps that can be taken to develop a rational and coordinated nuclear posture by the North Atlantic Treaty Organization Alliance that is consistent with proper emphasis on conventional defense forces. The Secretary of Defense shall report to the Committees on Armed Services and Foreign Relations of the Senate and the Committees on Armed Services and Foreign Affairs of the House of Representatives on the results of the above study on or before April 1, 1975.

TITLE IV—RESERVE FORCES

SEC. 401. For the fiscal year beginning July 1, 1974, and ending June 30, 1975, the Selected Reserve of each Reserve component of the Armed Forces will be programed to attain an average strength of not less than the following:

- (1) The Army National Guard of the United States, 400,000;
- (2) The Army Reserve, 225,000;
- (3) The Naval Reserve, 117,000;
- (4) The Marine Corps Reserve, 36,703;
- (5) The Air National Guard of the United States, 95,000;
- (6) The Air Force Reserve, 51,319;
- (7) The Coast Guard Reserve, 11,700.

SEC. 402. The average strength prescribed by section 401 of this title for the Selected Reserve of any Reserve component shall be proportionately reduced by (1) the total authorized strength of units organized to serve as units of the Selected Reserve of such component

which are on active duty (other than for training) at any time during the fiscal year, and (2) the total number of individual members not in units organized to serve as units of the Selected Reserve of such component who are on active duty (other than for training or for unsatisfactory participation in training) without their consent at any time during the fiscal year. Whenever such units or such individual members are released from active duty during any fiscal year, the average strength for such fiscal year for the Selected Reserve of such Reserve component shall be proportionately increased by the total authorized strength of such units and by the total number of such individual members.

SEC. 403. (a) The average strength prescribed by section 401 of this title for the Air National Guard of the United States shall be used to man a force which shall include not less than 91 flying units in the Air National Guard during the fiscal year beginning July 1, 1974.

Air National
Guard.

(b) It is the policy of Congress that any increase in the ratio of aircrew to aircraft for the strategic airlift mission of the Air Force above the present ratio of crewmembers per aircraft should be achieved to the maximum extent possible through the components of the Selected Reserve and not by increasing the active duty force level of the Air Force. To carry out such policy the Secretary of Defense is directed to study the possibility of increasing the strategic airlift crew ratio per aircraft to the required levels by utilizing jointly the resources of the Air National Guard and the Air Force Reserve. Such study shall specifically include: (1) restructuring the missions of Air National Guard units so as to retain an effective strategic airlift capability within the Air National Guard and the Air Force Reserve; (2) the utilization of Air National Guard units now in existence so as to avoid the loss of existing skills in those units; (3) alternatives, including, but not limited to, transfer, rotation, "hybridization", and "association", for making available to the Air National Guard and the Air Force Reserve strategic airlift aircraft in numbers sufficient to support an effective capability; and (4) the desirability of new statutory authority for the limited selective mobilization of members of the Air National Guard under circumstances not leading to a declaration of a national emergency by the Congress or the President. The Secretary shall submit his study to the Congress not later than 180 days after the date of enactment of this Act, and before the implementation thereof, together with an evaluation of such study, a proposed schedule for its possible implementation, and such recommendations for legislative action relating to the subject matter of this section as he may deem appropriate.

(C) The Department of the Air Force, 269,709;

(2) The end strength for civilian personnel prescribed in paragraph (1) of this subsection for the fiscal year ending June 30, 1975, shall be reduced by 32,327. Such reduction shall be apportioned among the Army, Navy, Air Force, and activities and agencies of the Department of Defense as the Secretary of Defense shall prescribe. The

Report to
Congress.

Secretary of Defense shall report to Congress within 60 days after the date of enactment of this Act on the manner in which this reduction is to be apportioned among the military services and the activities and agencies of the Department of Defense and among the mission categories described in the Manpower Requirements Report. This report shall include the rationale for each reduction.

(b) In computing the authorized end strength for civilian personnel there shall be included all direct-hire civilian personnel employed to perform military functions administered by the Department of Defense (other than those performed by the National Security Agency) whether in permanent or temporary positions and whether employed on a full-time, part-time, or intermittent basis, but excluding special employment categories for students and disadvantaged youth such as the stay-in-school campaign, the temporary summer aid program and the Federal junior fellowship program and personnel participating in the worker-trainee opportunity program. Whenever a function, power, or duty or activity is transferred or assigned to a department or agency of the Department of Defense from a department or agency outside of the Department of Defense or from a department or agency within the Department of Defense, the civilian personnel end strength authorized for such departments or agencies of the Department of Defense affected shall be adjusted to reflect any increases or decreases in civilian personnel required as a result of such transfer or assignment.

Personnel in-
crease, limita-
tion.

(c) When the Secretary of Defense determines that such action is necessary in the national interest, he may authorize the employment of civilian personnel in excess of the number authorized by subsection (a) of this section, but such additional number may not exceed one half of one per centum of the total number of civilian personnel authorized for the Department of Defense by subsection (a) of this section. The Secretary of Defense shall promptly notify the Congress of any authorization to increase civilian personnel strength under the authority of this subsection.

version.
10 USC 138
note.

SEC. 502. It is the sense of Congress that the Department of Defense shall use the least costly form of manpower that is consistent with military requirements and other needs of the Department of Defense. Therefore, in developing the annual manpower authorization requests to the Congress and in carrying out manpower policies, the Secretary of Defense shall, in particular, consider the advantages of converting from one form of manpower to another (military, civilian, or private contract) for the performance of a specified job. A full justification of any conversion from one form of manpower to another shall be contained in the annual manpower requirements report to the Congress required by section 138(c) (3) of title 10, United States Code.

(b) The average military training student loads for the Army, the Navy, the Marine Corps, and the Air Force and the Reserve components prescribed in subsection (a) of this section for the fiscal year ending June 30, 1975, shall be adjusted consistent with the manpower strengths provided in title III, title IV, and title V of this Act. Such adjustment shall be apportioned among the Army, the Navy, the Marine Corps, and the Air Force and the Reserve Components in such manner as the Secretary of Defense shall prescribe.

TITLE VII—GENERAL PROVISIONS

The application for the export of any such goods, technology, or techniques may be approved after submission by the President of his statement and the recommendation of the Secretary of Defense to the Congress and 60 days of continuous session of the Congress has elapsed following such submission unless within such 60 day period Congress has adopted a concurrent resolution disapproving the application for the export of such goods, technology, or techniques.

(d) As used in this section (1) the term "controlled country" means the Soviet Union, Poland, Romania, Hungary, Bulgaria, Czechoslovakia, the German Democratic Republic (East Germany), and such other countries as may be designated by the Secretary of Defense. and (2) the term "days of continuous session of the Congress" shall not include days on which either House of Congress is not in session because of an adjournment of more than three days.

The Commission is authorized to cooperate with any nation or group of nations by distributing special nuclear material and to distribute such special nuclear material, pursuant to the terms of an agreement for cooperation to which such nation or group of nations is a party and which is made in accordance with section 123. Unless hereafter otherwise authorized by law the Commission shall be compensated for special nuclear material so distributed at not less than the Commission's published charges applicable to the domestic distribution of such material, except that the Commission to assist and encourage research on peaceful uses or for medical therapy may so distribute without charge during any calendar year only a quantity of such material which at the time of transfer does not exceed in value \$10,000 in the case of one nation or \$50,000 in the case of any group of nations. however, That before they are established by the Commission pursuant to this subdivision (ii), such proposed amounts and periods shall be submitted to the Congress and referred to the Joint Committee and a period of sixty days shall elapse while Congress is in session (in computing such sixty days, there shall be excluded the days on which either House is not in session because of an adjournment of more than three days): *And provided further*, That any such proposed amounts and periods shall not become effective if during such sixty-day period the Congress passes a concurrent resolution stating in substance that it does not favor the proposed action: *And provided further*, That prior to the elapse of the first thirty days of any such sixty-day period the Joint Committee shall submit a report to the Congress of its views and recommendations respecting the proposed amounts and periods and an accompanying proposed concurrent resolution stating in substance that the Congress favors, or does not favor, as the case may be, the proposed amounts or periods. The Commission may agree to repurchase any special nuclear material distributed under a sale arrangement pursuant to this subsection which is not consumed in the course of the activities conducted in accordance with the agreement for cooperation, or any uranium remaining after irradiation of such special nuclear material, at a repurchase price not to exceed the Commission's sale price for comparable special nuclear material or uranium in effect at the time of delivery of such material to the Commission. The Commission may also agree to purchase, consistent with and within the period of the agreement for cooperation, special nuclear material produced in a nuclear reactor located outside the United States through the use of special nuclear material which was leased or sold pursuant to this subsection. Under any such agreement the Commission shall purchase only such material as is delivered to the Commission during any period when there is in effect a guaranteed purchase price for the same material produced in a nuclear reactor by a person licensed under section 104, established by the Commission pursuant to section 56, and the price to be paid shall be the price so established by the Commission and in effect for the same material delivered to the Commission.

"b. Notwithstanding the provisions of sections 123, 124, and 125, the Commission is authorized to distribute to any person outside the United States (1) plutonium containing 80 per centum or more by weight of plutonium-238, and (2) other special nuclear material when it has, in accordance with subsection 57 d., exempted certain classes or quantities of such other special nuclear material or kinds of uses or users thereof from the requirements for a license set forth in this chapter. Unless hereafter otherwise authorized by law, the Commission shall be compensated for special nuclear material so distributed at not less than the Commission's published charges applicable to the domestic distribution of such material. The Commission shall not distribute any plutonium containing 80 per centum or more by weight of plutonium-238 to any person under this subsection if, in its opinion, such distribution would be inimical to the common defense and security. The Commission may require such reports regarding the use of

material distributed pursuant to the provisions of this subsection as it deems necessary.

“c. The Commission is authorized to license or otherwise permit others to distribute special nuclear material to any person outside the United States under the same conditions, except as to charges, as would be applicable if the material were distributed by the Commission.”

SEC. 3. Section 57 of the Atomic Energy Act of 1954, as amended, is amended by adding at the end thereof the following new subsection:

“d. The Commission is authorized to establish classes of special nuclear material and to exempt certain classes or quantities of special nuclear material or kinds of uses or users from the requirements for a license set forth in this section when it makes a finding that the exemption of such classes or quantities of special nuclear material or such kinds of uses or users would not be inimical to the common defense and security and would not constitute an unreasonable risk to the health and safety of the public.”

SEC. 4. Section 81 of the Atomic Energy Act of 1954, as amended, is amended by deleting the word “licensees” and inserting in lieu thereof the words “qualified applicants” in the third sentence of such section and by deleting the fifth sentence of such section.

SEC. 6. Subsection 153 h. of the Atomic Energy Act of 1954, as amended, is amended by striking the figure “1974” and substituting therefor the figure “1979”.

SEC. 7. Subsection 161 i. of the Atomic Energy Act of 1954, as amended, is amended to read as follows:

“i. prescribe such regulations or orders as it may deem necessary (1) to protect Restricted Data received by any person in connection with any activity authorized pursuant to this Act, (2) to guard against the loss or diversion of any special nuclear material acquired by any person pursuant to section 53 or produced by any person in connection with any activity authorized pursuant to this Act, to prevent any use or disposition thereof which the Commission may determine to be inimical to the common defense and security, including regulations or orders designating activities, involving quantities of special nuclear material which in the opinion of the Commission are important to the common defense and security, that may be conducted only by persons whose character, associations, and loyalty shall have been investigated under standards and specifications established by the Commission and as to whom the Commission shall have determined that permitting each such person to conduct the activity will not be inimical to the common defense and security, and (3) to govern any activity authorized pursuant to this Act, including standards and restrictions governing the design, location, and operation of facilities used in the conduct of such activity, in order to protect health and to minimize danger to life or property;”

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Forest and Rangeland Renewable Resources Planning Act of 1974".

SEC. 2. RENEWABLE RESOURCE ASSESSMENT.—(a) In recognition of the vital importance of America's renewable resources of the forest, range, and other associated lands to the Nation's social and economic well-being, and of the necessity for a long term perspective in planning and undertaking related national renewable resource programs administered by the Forest Service, the Secretary of Agriculture shall prepare a Renewable Resource Assessment (hereinafter called the "Assessment"). The Assessment shall be prepared not later than December 31, 1975, and shall be updated during 1979 and each tenth year thereafter, and shall include but not be limited to—

(1) an analysis of present and anticipated uses, demand for, and supply of the renewable resources, with consideration of the international resource situation, and an emphasis of pertinent supply and demand and price relationship trends;

(2) an inventory, based on information developed by the Forest Service and other Federal agencies, of present and potential renewable resources, and an evaluation of opportunities for improving their yield of tangible and intangible goods and services, together with estimates of investment costs and direct and indirect returns to the Federal Government;

(3) a description of Forest Service programs and responsibilities in research, cooperative programs and management of the National Forest System, their interrelationships, and the relationship of these programs and responsibilities to public and private activities; and

(4) a discussion of important policy considerations, laws, regulations, and other factors expected to influence and affect significantly the use, ownership, and management of forest, range, and other associated lands.

(b) To assure the availability of adequate data and scientific information needed for development of the Assessment, section 9 of the McSweeney-McNary Act of May 22, 1928 (45 Stat. 702, as amended, 16 U.S.C. 581h), is hereby amended to read as follows:

"The Secretary of Agriculture is hereby authorized and directed to make and keep current a comprehensive survey and analysis of the present and prospective conditions of and requirements for the renewable resources of the forest and range lands of the United States, its territories and possessions, and of the supplies of such renewable resources, including a determination of the present and potential productivity of the land, and of such other facts as may be necessary and useful in the determination of ways and means needed to balance the demand for and supply of these renewable resources, benefits and uses in meeting the needs of the people of the United States. The Secretary shall carry out the survey and analysis under such plans as he may determine to be fair and equitable, and cooperate with appropriate officials of each State, territory, or possession of the United States, and

either through them or directly with private or other agencies. There is authorized to be appropriated not to exceed \$20,000,000 in any fiscal year to carry out the purposes of this section."

SEC. 3. RENEWABLE RESOURCE PROGRAM.—In order to provide for periodic review of programs for management and administration of the National Forest System, for research, for cooperative State and private Forest Service programs, and for conduct of other Forest Service activities in relation to the findings of the Assessment, the Secretary of Agriculture, utilizing information available to the Forest Service and other agencies within the Department of Agriculture, including data prepared pursuant to section 302 of the Rural Development Act of 1972, shall prepare and transmit to the President a recommended Renewable Resource Program (hereinafter called the "Program"). The Program transmitted to the President may include alternatives, and shall provide in appropriate detail for protection, management, and development of the National Forest System, including forest development roads and trails; for cooperative Forest Service programs; and for research. The Program shall be developed in accordance with principles set forth in the Multiple-Use Sustained-Yield Act of June 12, 1960 (74 Stat. 215; 16 U.S.C. 528-531), and the National Environmental Policy Act of 1969 (83 Stat. 852; 42 U.S.C. 4321-4347). The Program shall be prepared not later than December 31, 1975, to cover the four-year period beginning October 1, 1976, and at least each of the four fiscal decades next following such period, and shall be updated no later than during the first half of the fiscal year ending September 30, 1980, and the first half of each fifth fiscal year thereafter to cover at least each of the four fiscal decades beginning next after such updating. The Program shall include, but not be limited to—

(1) an inventory of specific needs and opportunities for both public and private program investments. The inventory shall differentiate between activities which are of a capital nature and those which are of an operational nature;

(2) specific identification of Program outputs, results anticipated, and benefits associated with investments in such a manner that the anticipated costs can be directly compared with the total related benefits and direct and indirect returns to the Federal Government;

(3) a discussion of priorities for accomplishment of inventoried Program opportunities, with specified costs, outputs, results, and benefits; and

(4) a detailed study of personnel requirements as needed to satisfy existing and ongoing programs.

SEC. 4. NATIONAL FOREST SYSTEM RESOURCE INVENTORIES.—As a part of the Assessment, the Secretary of Agriculture shall develop and maintain on a continuing basis a comprehensive and appropriately detailed inventory of all National Forest System lands and renewable resources. This inventory shall be kept current so as to reflect changes in conditions and identify new and emerging resources and values.

SEC. 5. NATIONAL FOREST SYSTEM RESOURCE PLANNING.—(a) As a part of the Program provided for by section 3 of this Act, the Secretary of Agriculture shall develop, maintain, and, as appropriate, revise land and resource management plans for units of the National Forest System, coordinated with the land and resource management planning processes of State and local governments and other Federal agencies.

(b) In the development and maintenance of land management plans for use on units of the National Forest System, the Secretary shall use a systematic interdisciplinary approach to achieve integrated consideration of physical, biological, economic, and other sciences.

SEC. 6. COOPERATION IN RESOURCE PLANNING.—The Secretary of Agriculture may utilize the Assessment, resource surveys, and Program prepared pursuant to this Act to assist States and other organizations in proposing the planning for the protection, use, and management of renewable resources on non-Federal land.

SEC. 7. NATIONAL PARTICIPATION.—(a) On the date Congress first convenes in 1976 and thereafter following each updating of the Assessment and the Program, the President shall transmit to the Speaker of the House of Representatives and the President of the Senate, when Congress convenes, the Assessment as set forth in section 2 of this Act and the Program as set forth in section 3 of this Act, together with a detailed Statement of Policy intended to be used in framing budget requests by that Administration for Forest Service activities for the five- or ten-year program period beginning during the term of such Congress for such further action deemed appropriate by the Congress. Following the transmission of such Assessment, Program, and Statement of Policy, the President shall, subject to other actions of the Congress, carry out programs already established by law in accordance with such Statement of Policy or any subsequent amendment or modification thereof approved by the Congress, unless, before the end of the first period of sixty calendar days of continuous session of Congress after the date on which the President of the Senate and the Speaker of the House are recipients of the transmission of such Assessment, Program, and Statement of Policy, either House adopts a resolution reported by the appropriate committee of jurisdiction disapproving the Statement of Policy. For the purpose of this subsection, the continuity of a session shall be deemed to be broken only by an adjournment sine die, and the days on which either House is not in session because of an adjournment of more than three days to a day certain shall be excluded in the computation of the sixty-day period. Notwithstanding any other provision of this Act, Congress may revise or modify the Statement of Policy transmitted by the President, and the revised or modified Statement of Policy shall be used in framing budget requests.

(b) Commencing with the fiscal budget for the year ending September 30, 1977, requests presented by the President to the Congress governing Forest Service activities shall express in qualitative and quantitative terms the extent to which the programs and policies projected under the budget meet the policies approved by the Congress in accordance with subsection (a) of this section. In any case in which such budget so presented recommends a course which fails to meet the policies so established, the President shall specifically set forth the reason or reasons for requesting the Congress to approve the lesser programs or policies presented. Amounts appropriated to carry out the policies approved in accordance with subsection (a) of this section shall be expended in accordance with the Congressional Budget and Impoundment Control Act of 1974, Public Law 93-344.

(c) For the purpose of providing information that will aid Congress in its oversight responsibilities and improve the accountability of agency expenditures and activities, the Secretary of Agriculture shall prepare an annual report which evaluates the component elements of the Program required to be prepared by section 3 of this Act which shall be furnished to the Congress at the time of submission of the annual fiscal budget commencing with the third fiscal year after the enactment of this Act.

(d) These annual evaluation reports shall set forth progress in implementing the Program required to be prepared by section 3 of this Act, together with accomplishments of the Program as they relate to the objectives of the Assessment. Objectives should be set forth in qualitative and quantitative terms and accomplishments should be reported accordingly. The report shall contain appropriate measurements of pertinent costs and benefits. The evaluation shall assess the balance between economic factors and environmental quality factors. Program benefits shall include, but not be limited to, environmental quality factors such as esthetics, public access, wildlife habitat, recreational and wilderness use, and economic factors such as the excess of cost savings over the value of foregone benefits and the rate of return on renewable resources.

(e) The reports shall indicate plans for implementing corrective action and recommendations for new legislation where warranted.

(f) The reports shall be structured for Congress in concise summary form with necessary detailed data in appendices.

SEC. 8. NATIONAL FOREST SYSTEM PROGRAM ELEMENTS.—The Secretary of Agriculture shall take such action as will assure that the development and administration of the renewable resources of the National Forest System are in full accord with the concepts for multiple use and sustained yield of products and services as set forth in the Multiple-Use Sustained-Yield Act of 1960. To further these concepts, the Congress hereby sets the year 2000 as the target year when the renewable resources of the National Forest System shall be in an operating posture whereby all backlogs of needed treatment for their restoration shall be reduced to a current basis and the major portion of planned intensive multiple-use sustained-yield management procedures shall be installed and operating on an environmentally-sound basis. The annual budget shall contain requests for funds for an orderly program to eliminate such backlogs: *Provided*, That when the Secretary finds that (1) the backlog of areas that will benefit by such treatment has been eliminated, (2) the cost of treating the remainder of such area exceeds the economic and environmental benefits to be secured from their treatment, or (3) the total supplies of the renewable resources of the United States are adequate to meet the future needs of the American people, the budget request for these elements of restoration may be adjusted accordingly.

tion.

SEC. 9. TRANSPORTATION SYSTEM.—The Congress declares that the installation of a proper system of transportation to service the National Forest System, as is provided for in Public Law 88-657, the Act of October 13, 1964 (16 U.S.C. 532-538), shall be carried forward in time to meet anticipated needs on an economical and environmentally sound basis, and the method chosen for financing the construction and maintenance of the transportation system should be such as to enhance local, regional, and national benefits, except that the financing of forest development roads as authorized by clause (2) of section 4 of the Act of October 13, 1964, shall be deemed "budget authority" and "budget outlays" as those terms are defined in section 3(a) of the Congressional Budget and Impoundment Control Act of 1974 and shall be effective for any fiscal year only in the manner required for new spending authority as specified by section 401(a) of that Act.

SEC. 10. (a) NATIONAL FOREST SYSTEM DEFINED.—Congress declares that the National Forest System consists of units of federally owned forest, range, and related lands throughout the United States and its territories, united into a nationally significant system dedicated to the long-term benefit for present and future generations, and that it is the purpose of this section to include all such areas into one integral system. The “National Forest System” shall include all national forest lands reserved or withdrawn from the public domain of the United States, all national forest lands acquired through purchase, exchange, donation, or other means, the national grasslands and land utilization projects administered under title III of the Bankhead-Jones Farm Tenant Act (50 Stat. 525, 7 U.S.C. 1010–1012), and other lands, waters, or interests therein which are administered by the Forest Service or are designated for administration through the Forest Service as a part of the system.

Forest Service

(b) The on-the-ground field offices, field supervisory offices, and regional offices of the Forest Service shall be so situated as to provide the optimum level of convenient, useful services to the public, giving priority to the maintenance and location of facilities in rural areas and towns near the national forest and Forest Service program locations in accordance with the standards in section 901(b) of the Act of November 30, 1970 (84 Stat. 1383), as amended.

SEC. 11. RENEWABLE RESOURCES.—In carrying out this Act, the Secretary of Agriculture shall utilize information and data available from other Federal, State, and private organizations and shall avoid duplication and overlap of resource assessment and program planning efforts of other Federal agencies. The term “renewable resources” shall be construed to involve those matters within the scope of responsibilities and authorities of the Forest Service on the date of this Act.

“(2) In any case in which the Commissioner determines that satisfactory data for that purpose are available, the grant which a local educational agency in a State shall be eligible to receive under this subpart for a fiscal year shall (except as provided in paragraph (3)) be determined by multiplying the number of children counted under subsection (c) by 40 per centum of the amount determined under the next sentence. “(3) For purposes of this section, with the concurrence of his parents, a migratory child of a migratory agricultural worker or of a migratory fisherman shall be deemed to continue to be such a child for a period, not in excess of five years, during which he resides in the area served by the agency carrying on a program or project under this subsection. Equal Educational Opportunities Act of 1974.

TITLE II—EQUAL EDUCATIONAL OPPORTUNITIES AND THE TRANSPORTATION OF STUDENTS

SHORT TITLE

20 USC 1701 note.

SEC. 201. This title may be cited as the “Equal Educational Opportunities Act of 1974”.

PART A—EQUAL EDUCATIONAL OPPORTUNITIES

Subpart 1—Policy and Purpose

DECLARATION OF POLICY

20 USC 1701.

SEC. 202. (a) The Congress declares it to be the policy of the United States that—

- (1) all children enrolled in public schools are entitled to equal educational opportunity without regard to race, color, sex, or national origin; and
 (2) the neighborhood is the appropriate basis for determining public school assignments.

(b) In order to carry out this policy, it is the purpose of this part to specify appropriate remedies for the orderly removal of the vestiges of the dual school system.

FINDINGS

20 USC 1702.

SEC. 203. (a) The Congress finds that—

(1) the maintenance of dual school systems in which students are assigned to schools solely on the basis of race, color, sex, or national origin denies to those students the equal protection of the laws guaranteed by the fourteenth amendment;

(2) for the purpose of abolishing dual school systems and eliminating the vestiges thereof, many local educational agencies have been required to reorganize their school systems, to reassign students, and to engage in the extensive transportation of students;

(3) the implementation of desegregation plans that require extensive student transportation has, in many cases, required local educational agencies to expend large amount of funds, thereby depleting their financial resources available for the maintenance or improvement of the quality of educational facilities and instruction provided;

(4) transportation of students which creates serious risks to their health and safety, disrupts the educational process carried out with respect to such students, and impinges significantly on their educational opportunity, is excessive;

(5) the risks and harms created by excessive transportation are particularly great for children enrolled in the first six grades; and

(6) the guidelines provided by the courts for fashioning remedies to dismantle dual school systems have been, as the Supreme Court of the United States has said, “incomplete and imperfect,” and have not established, a clear, rational, and uniform standard for determining the extent to which a local educational agency is required to reassign and transport its students in order to eliminate the vestiges of a dual school system.

(b) For the foregoing reasons, it is necessary and proper that the Congress, pursuant to the powers granted to it by the Constitution of the United States, specify appropriate remedies for the elimination of the vestiges of dual school systems, except that the provisions of this title are not intended to modify or diminish the authority of the courts of the United States to enforce fully the fifth and fourteenth amendments to the Constitution of the United States.

USC prec.
title 1.

Subpart 2—Unlawful Practices

DENIAL OF EQUAL EDUCATIONAL OPPORTUNITY PROHIBITED

SEC. 204. No State shall deny equal educational opportunity to an individual on account of his or her race, color, sex, or national origin, by—

20 USC 1703.

(a) the deliberate segregation by an educational agency of students on the basis of race, color, or national origin among or within schools;

(b) the failure of an educational agency which has formerly practiced such deliberate segregation to take affirmative steps, consistent with subpart 4 of this title, to remove the vestiges of a dual school system;

(c) the assignment by an educational agency of a student to a school, other than the one closest to his or her place of residence within the school district in which he or she resides, if the assignment results in a greater degree of segregation of students on the basis of race, color, sex, or national origin among the schools of such agency than would result if such student were assigned to the school closest to his or her place of residence within the school district of such agency providing the appropriate grade level and type of education for such student;

(d) discrimination by an educational agency on the basis of race, color, or national origin in the employment, employment conditions, or assignment to schools of its faculty or staff, except to fulfill the purposes of subsection (f) below;

(e) the transfer by an educational agency, whether voluntary or otherwise, of a student from one school to another if the purpose and effect of such transfer is to increase segregation of students on the basis of race, color, or national origin among the schools of such agency; or

(f) the failure by an educational agency to take appropriate action to overcome language barriers that impede equal participation by its students in its instructional programs.

BALANCE NOT REQUIRED

SEC. 205. The failure of an educational agency to attain a balance, on the basis of race, color, sex, or national origin, of students among its schools shall not constitute a denial of equal educational opportunity, or equal protection of the laws.

20 USC 1704.

ASSIGNMENT ON NEIGHBORHOOD BASIS NOT A DENIAL OF EQUAL EDUCATIONAL OPPORTUNITY

SEC. 206. Subject to the other provisions of this part, the assignment by an educational agency of a student to the school nearest his place of residence which provides the appropriate grade level and type of education for such student is not a denial of equal educational opportunity or of equal protection of the laws unless such assignment is for

20 USC 1705.

the purpose of segregating students on the basis of race, color, sex, or national origin, or the school to which such student is assigned was located on its site for the purpose of segregating students on such basis.

Subpart 3—Enforcement

CIVIL ACTIONS

20 USC 1706.

SEC. 207. An individual denied an equal educational opportunity, as defined by this part may institute a civil action in an appropriate district court of the United States against such parties, and for such relief, as may be appropriate. The Attorney General of the United States (hereinafter in this title referred to as the "Attorney General"), for or in the name of the United States, may also institute such a civil action on behalf of such an individual.

EFFECT OF CERTAIN POPULATION CHANGES ON CERTAIN ACTIONS

20 USC 1707.

SEC. 208. When a court of competent jurisdiction determines that a school system is desegregated, or that it meets the constitutional requirements, or that it is a unitary system, or that it has no vestiges of a dual system, and thereafter residential shifts in population occur which result in school population changes in any school within such a desegregated school system, such school population changes so occurring shall not, per se, constitute a cause for civil action for a new plan of desegregation or for modification of the court approved plan.

JURISDICTION OF DISTRICT COURTS

20 USC 1708.

SEC. 209. The appropriate district court of the United States shall have and exercise jurisdiction of proceedings instituted under section 207.

INTERVENTION BY ATTORNEY GENERAL

20 USC 1709.

SEC. 210. Whenever a civil action is instituted under section 207 by an individual, the Attorney General may intervene in such action upon timely application.

SUITS BY THE ATTORNEY GENERAL

20 USC 1710.

SEC. 211. The Attorney General shall not institute a civil action under section 207 before he—

(a) gives to the appropriate educational agency notice of the condition or conditions which, in his judgment, constitute a violation of subpart 2 of this part; and

(b) certifies to the appropriate district court of the United States that he is satisfied that such educational agency has not, within a reasonable time after such notice, undertaken appropriate remedial action.

Subpart 4—Remedies

FORMULATING REMEDIES; APPLICABILITY

20 USC 1712.

SEC. 213. In formulating a remedy for a denial of equal educational opportunity or a denial of the equal protection of the laws, a court, department, or agency of the United States shall seek or impose only such remedies as are essential to correct particular denials of equal educational opportunity or equal protection of the laws.

PRIORITY OF REMEDIES

SEC. 214. In formulating a remedy for a denial of equal educational opportunity or a denial of the equal protection of the laws, which may involve directly or indirectly the transportation of students, a court, department, or agency of the United States shall consider and make specific findings on the efficacy in correcting such denial of the following remedies and shall require implementation of the first of the remedies set out below, or of the first combination thereof which would remedy such denial:

20 USC 1713.

(a) assigning students to the schools closest to their places of residence which provide the appropriate grade level and type of education for such students, taking into account school capacities and natural physical barriers;

(b) assigning students to the schools closest to their places of residence which provide the appropriate grade level and type of education for such students, taking into account only school capacities;

(c) permitting students to transfer from a school in which a majority of the students are of their race, color, or national origin to a school in which a minority of the students are of their race, color, or national origin;

(d) the creation or revision of attendance zones or grade structures without requiring transportation beyond that described in section 215;

(e) the construction of new schools or the closing of inferior schools;

(f) the construction or establishment of magnet schools; or

(g) the development and implementation of any other plan which is educationally sound and administratively feasible, subject to the provisions of sections 215 and 216 of this part.

TRANSPORTATION OF STUDENTS

SEC. 215. (a) No court, department, or agency of the United States shall, pursuant to section 214, order the implementation of a plan that would require the transportation of any student to a school other than the school closest or next closest to his place of residence which provides the appropriate grade level and type of education for such student.

20 USC 1714.

(b) No court, department, or agency of the United States shall require directly or indirectly the transportation of any student if such transportation poses a risk to the health of such student or constitutes a significant impingement on the educational process with respect to such student.

(c) When a court of competent jurisdiction determines that a school system is desegregated, or that it meets the constitutional requirements, or that it is a unitary system, or that it has no vestiges of a dual system, and thereafter residential shifts in population occur which result in school population changes in any school within such a desegregated school system, no educational agency because of such shifts shall be required by any court, department, or agency of the United States to formulate, or implement any new desegregation plan, or modify or implement any modification of the court approved desegregation plan, which would require transportation of students to compensate wholly or in part for such shifts in school population so occurring.

DISTRICT LINES

20 USC 1715.

SEC. 216. In the formulation of remedies under section 213 or 214 of this part the lines drawn by a State, subdividing its territory into separate school districts, shall not be ignored or altered except where it is established that the lines were drawn for the purpose, and had the effect, of segregating children among public schools on the basis of race, color, sex, or national origin.

VOLUNTARY ADOPTION OF REMEDIES

20 USC 1716.

SEC. 217. Nothing in this part prohibits an educational agency from proposing, adopting, requiring, or implementing any plan of desegregation, otherwise lawful, that is at variance with the standards set out in this part nor shall any court, department, or agency of the United States be prohibited from approving implementation of a plan which goes beyond what can be required under this part, if such plan is voluntarily proposed by the appropriate educational agency.

REOPENING PROCEEDINGS

20 USC 1717.

SEC. 218. A parent or guardian of a child, or parents or guardians of children similarly situated, transported to a public school in accordance with a court order, or an educational agency subject to a court order or a desegregation plan under title VI of the Civil Rights Act of 1964 in effect on the date of the enactment of this part and intended to end segregation of students on the basis of race, color, or national origin, may seek to reopen or intervene in the further implementation of such court order, currently in effect, if the time or distance of travel is so great as to risk the health of the student or significantly impinge on his or her educational process.

42 USC 2000d.

LIMITATION ON ORDERS

20 USC 1718.

SEC. 219. Any court order requiring, directly or indirectly, the transportation of students for the purpose of remedying a denial of the equal protection of the laws may, to the extent of such transportation, be terminated if the court finds the defendant educational agency has satisfied the requirements of the fifth or fourteenth amendments to the Constitution, whichever is applicable, and will continue to be in compliance with the requirements thereof. The court of initial jurisdiction shall state in its order the basis for any decision to terminate an order pursuant to this section, and the termination of any order pursuant to this section shall be stayed pending a final appeal or, in the event no appeal is taken, until the time for any such appeal has expired. No additional order requiring such educational agency to transport students for such purpose shall be entered unless such agency is found not to have satisfied the requirements of the fifth or fourteenth amendments to the Constitution, whichever is applicable.

ADDITIONAL PRIORITY OF REMEDIES

20 USC 1755.

SEC. 256. SEC. 305. (a) (1) Section 3 of the Act of September 30, 1950 (Public Law 874, Eighty-first Congress), is amended to read as follows:

20 USC 238.

“CHILDREN RESIDING ON, OR WHOSE PARENTS ARE EMPLOYED ON, FEDERAL PROPERTY

“Children of Persons Who Reside and Work on Federal Property

“SEC. 3. (a) For the purpose of computing the amount to which a local educational agency is entitled under this section for any fiscal year, the Commissioner shall determine the number of children who were in average daily attendance at the schools of such agency, and for whom such agency provided free public education, during such fiscal year, and who, while in attendance at such schools, resided on Federal property and—

“(1) did so with a parent employed on Federal property situated (A) in whole or in part in the county in which the school district of such agency is located, or (B) if not in such county, in whole or in part in the same State as the school district of such agency; or

20 USC 244.

“(2) had a parent who was on active duty in the uniformed services (as defined in section 101 of title 37, United States Code). In making a determination under clause (2) of the preceding sentence with respect to a local educational agency for any fiscal year, the Commissioner shall include the number of children who were in average daily attendance at the schools of such agency, and for whom such agency provided free public education, during such year, and who, while in attendance at such schools, resided on Indian lands, as described in clause (A) of section 403(1).

“Children of Persons Who Reside or Work on Federal Property

“(b) For the purpose of computing the amount to which a local educational agency is entitled under this section for any fiscal year ending prior to July 1, 1978, the Commissioner shall, in addition to any determination made with respect to such agency under subsection (a), determine the number of children (other than children with respect to whom a determination is made for such fiscal year under subsection (a)) who were in average daily attendance at the schools of such agency, and for whom such agency provided free public education, during such fiscal year and who, while in attendance at such schools, either—

“(1) resided on Federal property, or

“(2) resided with a parent employed on Federal property situated (A) in whole or in part in the county in which the school district of such agency is located, or (B) if not in such county, in whole or in part in the same State as the school district of such agency, or

“(3) had a parent who was on active duty in the uniformed services (as defined in section 101 of title 37, United States Code). For such purpose, with respect to a local educational agency, in the case of any fiscal year ending prior to July 1, 1978, the Commissioner shall also determine the number of children (other than children to whom subsection (a) or the preceding sentence applies) who were in average daily attendance at the schools of such agency and for whom such agency provided free public education, during such fiscal year, and who, while in attendance at such schools resided with a parent who was, at any time during the three-year period immediately preceding the beginning of the fiscal year for which the determination is made, a refugee who meets the requirements of clauses (A) and (B) of section 2(b)(3) of the Migration and Refugee Assistance Act of 1962, except that the Commissioner shall not include in his determination under this sentence for any fiscal year any child with respect to whose education a payment was made under section 2(b)(4) of such Act.

22 USC 2601.

“Eligibility for Payments

“(c) (1) Except as is provided in paragraph (2), no local educational agency shall be entitled to receive a payment for any fiscal year with respect to a number of children determined under subsection (a) and subsection (b), unless the number of children so determined with respect to such agency amounts to—

“(A) at least four hundred such children; or

“(B) a number of such children which equals at least 3 per centum of the total number of children who were in average daily attendance, during such year, at the schools of such agency and for whom such agency provided free public education;

whichever is the lesser.

“(2) (A) (i) Clause (B) of paragraph (1) shall not operate to make any local educational agency eligible for a payment under this section for any fiscal year unless the number of children with respect to whom determination was made under subsections (a) and (b) respecting such agency for that fiscal year is at least ten.

“(ii) If a local educational agency is eligible for a payment for any fiscal year by the operation of clause (B) of paragraph (1), it shall continue to be so eligible for the two succeeding fiscal years even if such agency fails to meet the requirement of such clause (B) during such succeeding fiscal years, except that the number of children determined for the second such succeeding fiscal year with respect to such agency for the purpose of any clause in paragraph (1) of subsection (d) shall not exceed 50 per centum of the number of children determined with respect to such agency for the purpose of that clause for the last fiscal year during which such agency was so eligible.

“(iii) If the Commissioner determines with respect to any local educational agency for any fiscal year that—

Waiver.

“(I) such agency does not meet the requirement of clause (B) of paragraph (1); and

“(II) the application of such requirement, because of exceptional circumstances, would defeat the purposes of this title; the Commissioner is authorized to waive such requirement with respect to such agency.

“(B) No local educational agency shall be entitled to receive a payment for any fiscal year with respect to a number of children determined under the second sentence of subsection (b) unless the number of children so determined constitutes at least 20 per centum of the total number of children who were in average daily attendance at the schools of such agency and for whom such agency, during such fiscal year, provided free public education.

“Amount of Payments

“(d) (1) Except as is provided in paragraph (2), the amount to which a local educational agency shall be entitled under this section for any fiscal year shall be—

“(A) in the case of any local educational agency with respect to which the number of children determined for such fiscal year under subsection (a) amounts to at least 25 per centum of the total number of children who were in average daily attendance at the schools of such agency during such fiscal year and for whom such agency provided free public education, an amount equal to 100 per centum of the local contribution rate multiplied by the number of children determined under such subsection plus the sum of the products obtained with respect to such agency under clauses (B) (iii), (B) (iv), and (B) (v); and

“(B) in any other case, an amount equal to the sum of—

“(i) the product obtained by multiplying 100 per centum of the local contribution rate by the number of children determined with respect to such agency for such fiscal year under clause (2) of subsection (a),

“(ii) the product obtained by multiplying 90 per centum of the local contribution rate by the number of children determined with respect to such agency for such fiscal year under clause (1) of subsection (a),

“(iii) the product obtained by multiplying 50 per centum of the local contribution rate by the number of children determined with respect to such agency for such fiscal year under clause (3) of subsection (b).

“(iv) the product obtained by multiplying 45 per centum of the local contribution rate by the number of children determined with respect to such agency for such fiscal year under clauses (1) and (2) (A) of subsection (b), and

“(v) the product obtained by multiplying 40 per centum of the local contribution rate by the number of children determined with respect to such agency for such fiscal year under clause (2) (B) of subsection (b).

“(2) (A) Not later than December 1 during each fiscal year beginning after June 30, 1977, the Commissioner shall, except as is provided in clause (iii) in the third sentence of this subparagraph, determine the total number of children with respect to whom determinations are made under subsection (b) for all local educational agencies making application for payments under this section which meet the eligibility requirements set forth in subsection (c). The Commissioner shall determine the percentage which such number constitutes of the total number of children who were in average daily attendance at the schools of such agencies during such fiscal year and for whom such agencies provided free public education. In calculating the products under clauses (B) (iii), (B) (iv), and (B) (v) of paragraph (1), with respect to any local educational agency for any fiscal year, the Commissioner shall reduce the number of children with respect to whom a determination is made under subsection (b) by a number equal to one-half of the number which the percentage determined under the preceding sentence constitutes of the total number of children with respect to whom such a determination is made and who were in average daily attendance at the schools of such agency during such fiscal year and for whom such agency provided free public education, except that—

“(i) such percentage shall not exceed 4 per centum;

“(ii) the number reduced shall not exceed three hundred; and

“(iii) this subparagraph shall not apply to any local educational agency (I) with respect to which the number of children determined under subsection (b) for any fiscal year amounts to at least 10 per centum of the total number of children who were in average daily attendance at the schools of such agency during such fiscal year and for whom such agency provided free public education, or (II) during any fiscal year in which such agency receives more than 25 per centum of the funds for its current expenditures from payments under this section.

In determining the total number of children who were in average daily attendance at the schools of an agency during any fiscal year under clause (iii) (I) in the preceding sentence, the number of children in such schools with respect to whom a determination is made under subsection (a) for such year shall not be considered.

“(B) If the Commissioner determines that—

“(i) the amount computed under paragraph (1), as is otherwise provided in this subsection with respect to any local educational agency for any fiscal year, together with the funds available to such agency from State and local sources and from other sections of this title, is less than the amount necessary to enable such agency to provide a level of education equivalent to that maintained in the school districts of the State which are generally comparable to the school district of such agency;

“(ii) such agency is making a reasonable tax effort and exercising due diligence in availing itself of State and other financial assistance;

“(iii) not less than 50 per centum of the total number of children who were in average daily attendance at the schools of such agency during such fiscal year and for whom such agency provided free public education were, during such fiscal year, determined under either subsection (a) or clause (1) of subsection (b), or both; and

“(iv) the eligibility of such agency under State law for State aid with respect to free public education of children residing on Federal property, and the amount of such aid, are determined on a basis no less favorable to such agency than the basis used in determining the eligibility of local educational agencies for State aid, and the amount thereof, with respect to the free public education of other children in the State;

the Commissioner is authorized, to increase the amount computed under paragraph (1) with respect to such agency for such fiscal year to the extent necessary to enable such agency to provide a level of education equivalent to that maintained in such comparable school districts. The Commissioner shall not, under the preceding sentence, increase the amount computed under paragraph (1) with respect to any local educational agency for any fiscal year to an amount which exceeds the product of—

“(I) the amount the Commissioner determines to be the cost per pupil of providing a level of education maintained in such comparable school districts during such fiscal year, multiplied by—

“(II) the number of children determined with respect to such agency for such year under either subsection (a) or clause (1) of subsection (b), or both, minus the amount of State aid which the Commissioner determines to be available with respect to such children for the fiscal year for which the computation is being made.

“(C)(i) The amount of the entitlement of any local educational agency under this section for any fiscal year with respect to handicapped children and children with specific learning disabilities for whom a determination is made under subsection (a)(2) or (b)(3) and for whom such local educational agency is providing a program designed to meet the special educational and related needs of such children shall be the amount determined under paragraph (1) with respect to such children for such fiscal year multiplied by 150 per centum.

Special education programs, entitlement.

“(ii) For the purposes of division (i), programs designed to meet the special educational and related needs of such children shall be consistent with criteria established under division (iii).

“(iii) The Commissioner shall by regulation establish criteria for assuring that programs (including preschool programs) provided by local educational agencies for children with respect to whom this subparagraph applies are of sufficient size, scope, and quality (taking into consideration the special educational needs of such children) as to give reasonable promise of substantial progress toward meeting those needs, and in the implementation of such regulations the Commissioner shall consult with persons in charge of special education programs for handicapped children in the educational agency of the State in which such local educational agency is located.

Criteria.

“(iv) For the purpose of this subparagraph the term ‘handicapped children’ has the same meaning as specified in section 602(1) of the Education of the Handicapped Act and the term ‘children with specific learning disabilities’ has the same meaning as specified in section 602(15) of such Act.

20 USC 1401.

Local contribution rate.

Formula.

"(3) (A) Except as is provided in subparagraph (B), in order to compute the local contribution rate for a local educational agency for any fiscal year, the Commissioner, after consulting with the State educational agency of the State in which the local educational agency is located and with the local educational agency, shall determine which school districts within such State are generally comparable to the school district of the local educational agency for which the computation is being made. The local contribution rate for such agency shall be the quotient of—

"(i) the aggregate current expenditures, during the second fiscal year preceding the fiscal year for which the computation is made, which the local educational agencies of such comparable school districts derived from local sources, divided by—

"(ii) the aggregate number of children in average daily attendance for whom such agency provided free public education during such second preceding fiscal year.

"(B) (i) The local contribution rate for a local educational agency in any State shall not be less than—

"(I) 50 per centum of the average per pupil expenditure in such State, or

"(II) 50 per centum of such expenditures in all the States, whichever is greater, except that clause (II) shall not operate in such a manner as to make the local contribution rate for any local educational agency in any State exceed an amount equal to the average per pupil expenditure in such State.

"(ii) If the current expenditures in those school districts which the Commissioner has determined to be generally comparable to the school district of the local educational agency for which a computation is made under subparagraph (A) are not reasonably comparable because of unusual geographical factors which affect the current expenditures necessary to maintain, in the school district of such agency, a level of education equivalent to that maintained in such other school districts, the Commissioner is authorized to increase the local contribution rate for such agency by such an amount which he determines will compensate such agency for the increase in current expenditures necessitated by such unusual geographical factors.

"(iii) The local contribution rate for any local educational agency in—

"(I) Puerto Rico, Wake Island, Guam, American Samoa, or the Virgin Islands, or

"(II) any State in which a substantial proportion of the land is in unorganized territory, or

"(III) any State in which there is only one local education agency.

shall be determined for any fiscal year by the Commissioner in accordance with policies and principles which will best achieve the purposes of this section and which are consistent with the policies and principles provided in this paragraph for determining local contribution rates in States where it is possible to determine generally comparable school districts.

Definitions.

"(C) For the purposes of this paragraph—

"(i) the term 'State' does not include Puerto Rico, Wake Island, Guam, American Samoa, or the Virgin Islands; and

"(ii) the 'average per pupil expenditure' in a State shall be (I) the aggregate current expenditures, during the second fiscal year preceding the fiscal year for which the computation is made of all local educational agencies in the State, divided by (II) the

aggregate number of children in average daily attendance for whom such agencies provide free public education during such second preceding fiscal year.

“Adjustments for Decreases in Federal Activities

“(e) Whenever the Commissioner determines that—

“(1) for any fiscal year, the number of children determined with respect to any local educational agency under subsections (a) and (b) is less than 90 per centum of the number so determined with respect to such agency during the preceding fiscal year;

“(2) there has been a decrease or cessation of Federal activities within the State in which such agency is located; and

“(3) such decrease or cessation has resulted in a substantial decrease in the number of children determined under subsections (a) and (b) with respect to such agency for such fiscal year; the amount to which such agency is entitled for such fiscal year and for any of the three succeeding fiscal years shall not be less than 90 per centum of the amount to which such agency was so entitled for the preceding fiscal year. That part of any entitlement of any local educational agency which is in excess of the amount which such entitlement would be without the operation of the preceding sentence shall be deemed to be attributable to determinations of children with respect to such agency under subsection (b) (2) (A).

“Determinations on the Basis of Estimates

“(f) Determinations with respect to a number of children by the Commissioner under this section for any fiscal year shall be made, whenever actual satisfactory data are not available, on the basis of estimates. No such determination shall operate, because of an underestimate, to deprive any local educational agency of its entitlement to any payment (or the amount thereof) under this section to which such agency would be entitled had such determination been made on the basis of accurate data.”

(2) Section 5 of such Act is amended to read as follows:

20 USC 240.

(a) (1) Any local educational agency desiring to receive the payments to which it is entitled for any fiscal year under sections 2, 3, or 4 shall submit an application therefor through the State educational agency of the State in which such agency is located to the Commissioner. Such applications shall be submitted at such time, in such form, and containing such information as the Commissioner may reasonably require to enable him to carry out his functions under this title and shall give adequate assurance that the applicant will submit such reports as the Commissioner may reasonably require to determine whether such agency is entitled to a payment under any of such sections and the amount of such payment.

20 USC 239.

"(b) The Commissioner shall pay to each local educational agency, making application pursuant to subsection (a), the amount to which it is entitled under sections 2, 3, or 4. Sums appropriated, for any fiscal year, to enable the Commissioner to make payments pursuant to this title shall, notwithstanding any other provision of law unless enacted in express limitation of this subsection, remain available for obligation and payments with respect to amounts due local educational agencies under this title for such fiscal year, until the end of the fiscal year succeeding the fiscal year for which such sums are appropriated.

"Adjustments Where Necessitated by Appropriations

"(c) If the sums appropriated for any fiscal year for making payments on the basis of entitlements established under sections 2, 3, and 4 for that year are not sufficient to pay in full the total amounts which the Commissioner estimates all local educational agencies are entitled to receive under such sections for such year, the Commissioner shall allocate such sums among local educational agencies and make payments to such agencies as follows:

"(1) He shall first allocate to each local educational agency which is entitled to a payment under section 2 and section 3 an amount equal to 25 per centum of the amount to which it is entitled as computed under section 2 or section 3(d), as the case may be, for such fiscal year.

"(2) From that part of such sums which remains after the allocation required by paragraph (1) for any fiscal year, he shall allocate an additional amount—

"(A) to each local educational agency described in clause (A) of section 3(d)(1) which equals 75 per centum of the amount to which such agency is entitled, as computed under section 3(d) with respect to a determination of a number of children under section 3(a), for such fiscal year;

"(B) to each local educational agency with respect to which a number of children is determined under clause (2) of section 3(a) which equals 65 per centum of the amount to which such agency is entitled on the basis of determining such children as computed under section 3(d), for such fiscal year;

"(C) to each local educational agency with respect to which a number of children is determined under clause (1) of section 3(a) which equals 63 per centum of the amount to which such agency is entitled on the basis of determining such children, as computed under section 3(d), for such fiscal year;

"(D) to each local educational agency with respect to which a number of children is determined under clause (3) of section 3(b) which equals 35 per centum of the amount to which such agency is entitled on the basis of determining such children, as computed under section 3(d), for such fiscal year;

"(E) to each local educational agency with respect to which a number of children is determined under clause (1) and clause (2)(A) of section 3(b) which equals 32 per centum of the amount to which such agency is entitled on the basis of determining such children, as computed under section 3(d) for such fiscal year;

“(F) to each local educational agency with respect to which a number of children is determined under clause (2) (B) of section 3(b) which equals 28 per centum of the amount to which such agency is entitled on the basis of determining such children, as computed under section 3(d), for such fiscal year; and

“(G) to each local educational agency with respect to the amount to which such agency is entitled under section 2 which equals 35 per centum of the amount to which such agency is entitled on the basis of computations made under section 2 for such fiscal year.

“(3) Any sums remaining after allocations are made pursuant to paragraph (2) for any fiscal year shall be allocated by the Commissioner among local educational agencies which have unsatisfied entitlements established under sections 2, 3, and 4 in proportion to the degree to which such entitlements are unsatisfied for that fiscal year, after allocations are made pursuant to paragraphs (1) and (2).

No allocation may be made pursuant to any clause of paragraph (2) and no payment may be made on the basis of any such allocation unless allocations are made pursuant to all of the clauses of such paragraph and payments are made on the basis of such allocations.

Restrictions.

“Treatment of Payments by the States in Determining Eligibility for, and the Amount of, State Aid

“(d) (1) Except as provided in paragraph (2), no payments may be made under this title for any fiscal year to any local educational agency in any State (A) if that State has taken into consideration payments under this title in determining—

“(i) the eligibility of any local educational agency in that State for State aid for free public education of children; or

“(ii) the amount of such aid with respect to any such agency; during that fiscal year or the preceding fiscal year, or (B) if such State makes such aid available to local educational agencies in such a manner as to result in less State aid to any local educational agency which is eligible for payments under this title than such agency would receive if such agency were not so eligible.

“(2) (A) Notwithstanding paragraph (1) of this subsection, if a State has in effect a program of State aid for free public education for any fiscal year, which is designed to equalize expenditures for free public education among the local educational agencies of that State, payments under this title for any fiscal year may be taken into consideration by such State in determining the relative—

“(i) financial resources available to local educational agencies in that State; and

“(B) The terms ‘State aid’ and ‘equalize expenditures’ as used in this subsection shall be defined by the Commissioner by regulation, after consultation with State and local educational agencies affected by this subsection, provided that the term ‘equalize expenditures’ shall not be construed in any manner adverse to a program of State aid for free public education which provides for taking into consideration the additional cost of providing free public education for particular groups or categories of pupils in meeting the special educational needs of such children as handicapped children, economically disadvantaged, those who need bilingual education, and gifted and talented children.

“Limitations on Payments with Respect to Children on, or Residing with a Parent Employed on, Federal Property Described in Section 403(1)(C)

Ante, p. 523.

“(e) (1) The Commissioner shall determine that part of the entitlement of each local educational agency, for each fiscal year ending prior to July 1, 1978, which is attributable to determinations under subsections (a) and (b) of section 3 of the number of children who resided on, or resided with a parent employed on, property which is described in section 403(1)(C).

“(2) No allocation or payment shall be made under paragraph (2) of subsection (c) with respect to that part of any entitlement of any local educational agency which is determined with respect to such agency for such year under paragraph (1). The limitation in this paragraph shall not operate under the last two sentences of subsection (c) to prevent allocations and payments under such paragraph (2).

“(3) The amount of the payment to any local educational agency which is determined with respect to such agency under paragraph (1) shall be used for special programs and projects designed to meet the special educational needs of educationally deprived children from low income families.

(3) Section 7(c) of such Act is amended by striking out the second sentence thereof and inserting in lieu thereof the following: “Pending such appropriation, the Commissioner is authorized to expend (without regard for subsections (a) and (e) of section 3679 of the Revised Statutes (31 U.S.C. 665)) from any funds appropriated to the Office of Education and at that time available to the Commissioner, such sums as may be necessary for providing immediate assistance under this section. (II) in the case of any other local educational agency, the amount so paid during any fiscal year beginning after June 30, 1974, and ending prior to July 1, 1978, shall not be less than 80 per centum of the amount so paid for the preceding fiscal year.

20 USC 236.

In the case of any local educational agency which is eligible prior to July 1, 1975, for a payment under section 3 of the Act of September 30, 1950 (Public Law 874, Eighty-first Congress) by reason of the 3 per centum requirement in clause (B) of section 3(c)(2) of such Act, as in effect prior to the effective date of the amendment made by paragraph (1) of subsection (a), but which fails to meet such requirement in any fiscal year ending prior to July 1, 1977, such agency shall continue to be eligible for a payment under such section 3 as then in effect for the two succeeding fiscal years, but the payment under such section during the second of such succeeding fiscal years shall not exceed 50 per centum of the amount of the payment such agency was entitled to receive during the most recent fiscal year in which it was so eligible by reason of such clause (B).

(ii) Funds appropriated for any fiscal year for making payments to local educational agencies pursuant to the Act of September 30, 1950 (Public Law 874, Eighty-first Congress), which are increased by reason of the provisions of division (i) shall, to the extent of any such increase, be separate from funds appropriated for such fiscal year for payments pursuant to title I of such Act which are not so increased. If, for any fiscal year, a law making appropriations for payments pursuant to such title I is enacted and such law makes no express provision for payments increased by division (i)—

(I) all funds so appropriated shall be allocated and paid in accordance with section 5 of such Act of September 30, 1950, and without regard for the provisions of division (i); and

The provisions of this subparagraph shall be effective on and after July 1, 1974, and with respect to appropriations for the fiscal year ending June 30, 1975, and succeeding fiscal years, and such provisions shall be deemed to have been enacted before the beginning of the fiscal year ending June 30, 1975. Nothing in this subparagraph shall be construed to decrease the amount of the payment to which any local educational agency is entitled for any fiscal year on the basis of entitlements created under section 3 of such Act of September 30, 1950.

(C) During the first fiscal year in which the amendments made by subsection (a) are effective and each of the succeeding fiscal years ending prior to July 1, 1978, the Commissioner shall determine with respect to each local educational agency in any State the number of children who were in average daily attendance at the schools of such agency, and for whom such agency provided free public education, during such fiscal year, and who, while in attendance at such schools resided with a parent employed on Federal property in a State or in a county other than the State or county, as the case may be, in which the school district of such agency is located but which is situated within a reasonable commuting distance from the school district of such agency. If the number of children determined under the preceding sentence is equal to at least 10 per centum of the total number of children determined with respect to such agency for such fiscal year under section 3(b) of the Act of September 30, 1950 (Public Law 874, Eighty-first Congress), the amount to which such agency shall be entitled with respect to a number of children determined under such section 3(b) for such fiscal year, shall not be less than 90 per centum of the amount which such agency received with respect to the number of children so determined during the preceding fiscal year, as computed under section 3 of such Act.

(D) (i) The Commissioner shall determine for each fiscal year beginning after June 30, 1975, and ending prior to July 1, 1978, the amount which each local educational agency would be paid for that fiscal year under section 3 of the Act of September 30, 1950 (Public Law 874, Eighty-first Congress) if the amount appropriated had been allocated as provided in section 5(c) of such Act without regard for entitlements (or portions thereof) which are attributable to determinations under subsections (a) and (b) of such section of the number

The Commissioner shall then determine the amount which each local educational agency is to be paid for that fiscal year under such section 3 and allocated in accordance with such section 5(c). If the amount determined with respect to any local educational agency under the first sentence of this division is greater than the amount determined with respect to the second sentence of this division, the Commissioner shall pay to that agency an amount equal to the difference between the amounts so determined.

20 USC 244.

(ii) Funds appropriated for any fiscal year for making payments pursuant to the third sentence of division (i) shall be separate from funds appropriated for such fiscal year for making payments pursuant to section 5 of the Act of September 30, 1950 (Public Law 874, Eighty-first Congress). If, for any fiscal year, a law making appropriations for payments pursuant to such section 5 is enacted, and such law makes no express provision for payments pursuant to such third sentence—

Ante, p. 529.

(I) all funds so appropriated shall be allocated and paid in accordance with such section 5, without regard for such third sentence; and

(II) not later than fifteen days after the enactment of such law, the Commissioner shall submit a report to the Committees on Appropriations and on Education and Labor of the House of Representatives and the Committees on Appropriations and Labor and Public Welfare of the Senate, which report shall contain a statement detailing the dollar amounts necessary to make the payments required under such third sentence and shall, with respect to such dollar amounts, constitute a budget estimate within the meaning of section 201(a)(5) of the Act of June 10, 1921 (31 U.S.C. 11(a)(5)).

“(2) (A) During the thirty-day period prior to the date upon which such standard, rule, regulation, or general requirement is to be effective, the Commissioner shall, in accordance with the provisions of section 553 of title 5, United States Code, offer any interested party an opportunity to make comment upon, and take exception to, such standard, rule, regulation, or general requirement and shall reconsider any such standard, rule, regulation, or general requirement upon which comment is made or to which exception is taken.

“(B) If the Commissioner determines that the thirty-day requirement in paragraph (1) will cause undue delay in the implementation of a regulation, thereby causing extreme hardship for the intended beneficiaries of an applicable program, he shall notify the Committee on Education and Labor of the House of Representatives and the Committee on Labor and Public Welfare of the Senate. If neither committee disagrees with the determination of the Commissioner within 10 days after such notice, the Commissioner may waive such requirement with respect to such regulation.”

Waiver.

Ante, p. 566.

(2) Section 431 of such Act is amended by adding at the end thereof the following new subsections:

“(d) (1) Concurrently with the publication in the Federal Register of any standard, rule, regulation, or requirement of general applicability as required in subsection (b) of this section, such standard, rule, regulation, or requirement shall be transmitted to the Speaker of the House of Representatives and the President of the Senate. Such standard, rule, regulation, or requirement shall become effective not less than forty-five days after such transmission unless the Congress shall, by concurrent resolution, find that the standard, rule, regulation, or requirement is inconsistent with the Act from which it derives its authority, and disapprove such standard, rule, regulation, or requirement.

Transmittal to Speaker of the House and President of the Senate.

Effective date.

“(2) The forty-five-day period specified in paragraph (1) shall be deemed to run without interruption except during periods when either House is in adjournment sine die, in adjournment subject to the call of the Chair, or in adjournment to a day certain for a period of more than four consecutive days. In any such period of adjournment, the forty-five days shall continue to run, but if such period of adjournment is thirty calendar days, or less, the forty-five-day period shall not be deemed to have elapsed earlier than ten days after the end of such adjournment. In any period of adjournment which lasts more than thirty days, the forty-five-day period shall be deemed to have elapsed after thirty calendar days has elapsed, unless, during those thirty calendar days, either the Committee on Education and Labor of the House of Representatives, or the Committee on Labor and Public Welfare of the Senate, or both, shall have directed its chairman, in accordance with said committee's rules, and the rules of that House, to transmit to the appropriate department or agency head a formal statement of objection to the proposed standard, rule, regulation, or requirement. Such letter shall suspend the effective date of the standard, rule, regulation, or requirement until not less than twenty days after the end of such adjournment, during which the Congress may enact the concurrent resolution provided for in this subsection. In no event shall the standard, rule, regulation, or requirement go into effect until the forty-five-day period shall have elapsed, as provided for in this subsection, for both Houses of the Congress.

“(e) Whenever a concurrent resolution of disapproval is enacted by the Congress under the provisions of this section, the agency which issued such standard, rule, regulation, or requirement may thereafter issue a modified standard, rule, regulation, or requirement to

govern the same or substantially identical circumstances, but shall, in publishing such modification in the Federal Register and submitting it to the Speaker of the House of Representatives and the President of the Senate, indicate how the modification differs from the proposed standard, rule, regulation, or requirement of general applicability earlier disapproved, and how the agency believes the modification disposes of the findings by the Congress in the concurrent resolution of disapproval.

“(f) For the purposes of subsections (d) and (e) of this section, activities under sections 404, 405, and 406 of this title, and under title IX of the Education Amendments of 1972 shall be deemed to be applicable programs.

“(g) Not later than sixty days after the enactment of any part of any Act affecting the administration of any applicable program, the Commissioner shall submit to the Committee on Education and Labor of the House of Representatives and the Committee on Labor and Public Welfare of the Senate a schedule in accordance with which the Commissioner has planned to promulgate rules, regulations, and guidelines implementing such Act or part of such Act. Such schedule shall provide that all such rules, regulations, and guidelines shall be promulgated within one hundred and eighty days after the submission of such schedule. Except as is provided in the following sentence, all such rules, regulations, and guidelines shall be promulgated in accordance with such schedule. If the Commissioner finds that, due to circumstances unforeseen at the time of the submission of any such schedule, he cannot comply with a schedule submitted pursuant to this subsection, he shall notify such committees of such finding and submit a new schedule. If both such committees notify the Commissioner of their approval of such new schedule, such rules, regulations, and guidelines shall be promulgated in accordance with such new schedule.”.

(b) The amendment made by paragraph (2) of subsection (a) shall be effective on the date of enactment of this Act and shall be effective with respect to the provisions of this Act.

SIMPLIFIED STATE APPLICATION

SEC. 511. (a) Section 434 of the General Education Provisions Act is amended by striking out subsection (b) thereof and inserting in lieu thereof the following:

20 USC 1232c.

“(b)(1)(A) In the case of any State which applies, contracts, or submits a plan, for participation in any applicable program in which Federal funds are made available for assistance to local educational agencies through, or under the supervision of the State educational agency of that State, such State shall submit to, and maintain on file with, the Commissioner a general application meeting the requirements of this subsection. Such general application shall (i) provide for the submission by the State and approval by the Commissioner of an annual program plan with respect to the particular programs in which the State desires to participate and (ii) provide assurances—

“(I) that the State will, through its State educational agency, provide for such methods of administration as are necessary for the proper and efficient administration of the programs to which the general application applies;

“(II) that the State will make provision for such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement of, and accounting for, Federal funds paid to the States under any applicable program;

“(III) that the State will make provision for making such reports as the Commissioner may require to carry out his functions;

“(IV) that the State will follow such policies and use such methods and practices of administration as will insure that non-Federal funds will not be supplanted by Federal funds; and

“(V) that the State will submit to, and have approved by, the Commissioner an annual program plan in accordance with subparagraph (B).

“(B) The annual program plan submitted by any State for any fiscal year with respect to any program to which this paragraph applies shall—

Annual program plan.

“(i) be prepared and administered in a manner consistent with specific State plan requirements of the appropriate applicable statutes affecting the program for which the annual program plan is applicable;

“(ii) set forth a statement describing the purposes for which Federal funds will be expended during the fiscal year for which the annual program plan is submitted; and

“(iii) comply in all other respects with the specific requirements of the appropriate applicable statutes.

“(2) In accordance with determinations and regulations of the Commissioner, the requirements of paragraph (1) shall be in lieu of comparable requirements for State plans in applicable statutes authorizing appropriations for programs to which paragraph (1) applies.

“(3) In the case of any application for assistance under any applicable program to which paragraph (1) does not apply and with respect to which the Commissioner determines that this section would simplify the administration of an applicable program, each such application shall be submitted to the Commissioner at such time, in such manner, and containing such information as the Commissioner shall prescribe by regulation and, as a precondition for approval, shall—

“(A) provide for such methods of administration as are necessary for the proper and efficient administration of the program or project for which application is made;

“(B) make provision for such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement of, and accounting for, Federal funds paid to the applicant under the application; and

“(C) provide for making such reports as the Commissioner may require to carry out his functions.

Noncompliance.

“(c) Whenever the Commissioner, after reasonable notice and an opportunity for hearing, finds that there has been a failure, by any recipient of funds under any applicable program, to comply substantially with the terms to which such recipient has agreed in order to receive such funds, the Commissioner shall notify such recipient that further payments will not be made to such recipient under that program until he is satisfied that such recipient no longer fails to comply with such terms. Until the Commissioner is so satisfied, no further payments shall be made to such recipient. Pending the outcome of any termination proceeding initiated under this paragraph, the Commissioner may suspend payments to such recipient, after such recipient has been given reasonable notice and opportunity to show cause why such action should not be taken.

Judicial review.

“(d) (1) If any State has submitted an application for funds under any applicable program under which appropriations for such program are, by the applicable statute, allotted or apportioned among the States or under which the State (or local educational agencies in that State) is entitled to a portion of an appropriation therefor and the Commissioner disapproves such application, or if the Commissioner withholds payments to a State under paragraph (1) of subsection (c), that State shall be entitled to judicial review of the actions of the Commissioner in accordance with the provisions of this paragraph.

“(2) (A) If any State, under circumstances qualifying for judicial review under this paragraph, desires judicial review of the Commissioner's action, such State may, within sixty days of such action, file with the United States Court of Appeals for the circuit in which such State is located a petition for review of such action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Commissioner. The Commissioner thereupon shall file in the court the record of the proceedings on which he based the action brought under this division, as provided in section 2112 of title 28, United States Code.

“(B) The findings of fact by the Commissioner, if supported by substantial evidence, shall be conclusive; but the court, for good cause shown, may remand the case to the Commissioner to take further evidence, and the Commissioner may thereupon make new or modified findings of fact and may modify his previous action, and shall certify to the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

“(C) The court shall have jurisdiction to affirm the action of the Commissioner or to set it aside, in whole or in part. The judgment of the court shall be subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28, United States Code.

“Application.”

“(e) For the purposes of this section, the term ‘application’ includes—

“(1) an application for a grant;

“(2) an offer to make a contract;

“(3) a State plan for the administration of an applicable program;

“(4) State assurances with respect to the administration of such a program; and

“(5) any other methods for seeking Federal funds from the Commissioner of Education;

under which an agency, institution, organization, or other organized entity may become the recipient of Federal funds.”

(b) (1) The amendments made by subsection (a) shall be effective on and after July 1, 1974.
